Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s)	Adjudication Claim No(s)	Split	Water Right No(s)	Adjudication Claim No(s)	Split

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Wood River Properties, Inc.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

PLACE OF USE: AESTHETIC, same as RECREATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

WATER RIGHT NO. 37-07822

CONDITIONS/REMARKS:

5. Use of water under this water right will be regulated by the watermaster of State Water District No. 37.
6. Use of water under this right shall be non-consumptive.
7. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
8. Measuring devices of a type approved by the Department shall be maintained at the points of diversion.
9. The Director retains jurisdiction of this right to require installation of measuring devices at the points where water returns to the Big Wood River.
10. This project shall be operated in a manner that will not conflict or interfere with the future upstream diversion of water for irrigation or other beneficial consumption.
11. Upon a future determination by the Department of Water Resources that water is lost to the injury of prior right holders, the losses shall be replaced from a source acceptable to the Department.
12. The water shall be returned to the Big Wood River at the discharge point located in lot 31, Gimlet 11 Subdivision, located within the SENE Section 7, T03N R18E B.M.
13. Water diverted under this right shall meet Idaho Water Quality Standards.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

State of California, deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Water of the State of Idaho No. 37-7822

That under the terms and conditions of said permit, work thereunder was required to be completed on or before July 17, 19 85

That he has heretofore performed the following work described under said permit: Installed a

(This must be filled out! If no work has been completed put none.)

diversion structure consisting of an operative gate

and including a culvert with access to the Big Wood River.

Costing \$ 12,000.00 approx.

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit:

Due to the heavy flooding of the Wood River in the spring of 1983 there was substantial erosion over the area in which I intended to run the water diversion for recreational purposes. I have been unable until present to get an engineering plan that would be adequate and beneficial from an environmental and aesthetic point of view. Such a plan now has been completed and I will be meeting shortly with both engineer and contractor to perform the grading required for the recreational stream. I anticipate that work being completed by the end of the coming summer season (1985) along with a measuring device which is also required*

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations

under said permit to July 17, 19 88
(1 yr. minimum, 5 yrs. maximum)

*under this application. Although I anticipate completing the work much sooner I am asking for a 3-year extension in the event any unforeseeable delays should occur.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 37-7822, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 85.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: (1) Use of water under this permit is subject to control by the water-master of State Water District # 37, Big Wood River. (2) Measuring devices of a type approved by the Department shall be permanently installed and maintained at the point of diversion and the point of effluent discharge. (3) The issuance of this permit in no way grants any right-of-way or easement across the land of another. (4) Any water diverted under this permit that is lost between the point of diversion and point of return to the river shall be replaced with groundwater. (5) This project shall be operated in a manner that will not conflict or interfere with the future upstream diversion of water for irrigation or other beneficial consumption.

RE: Change of Ownership for Water Right 37-7822

Dear Water Right Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

for Jeff Peppersack, Manager

Subject: RE: South Gimlet Water Users

Hi Jim . . .

I have received your request for change of ownership on Water Right 37-7822 changing from Wood River Properties to South Gimlet Water Users Assn., Inc. The copy you sent to Allen Merritt has been forwarded to me as well. There is NO SRBA involvement for this water right so a \$25.00 filing fee will be required before any processing of your request can occur. Please send the filing fee to:

IDWR
1301 N ORCHARD
BOISE ID 83706-2237

Please note on the check that the money is for ownership change of water right 37-7822. If we have not received the filing within 30 days of this e-mail, your request will be returned to you and no further action will be taken.

Thank you,

Kari Lynn Townsend

RE: Change in Ownership of Water Right 37-07822

Dear Mr. Carr:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

✓ **Legal Description of Property**

During our review of the documentation you submitted we found some discrepancies between that documentation and the legal description of the place of use for the water right(s) indicated in your notice. The water right license includes land in Section 7 but that is not included on your deed. I have enclosed a copy of the water right license for your reference.

Because the Department cannot process the ownership change without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

Please feel free to contact the Department if you have any questions.

Sincerely,

Kari Lynn Townsend
Secretary

RE: Telephone Conversations

As a result of reviewing the Notice of Change of Water Right Ownership form and accompanying documentation it was found that the chain of title was incomplete (at least according to the name on the WR license).

I discussed this with Jill Hansen at Idaho Title & Trust. She referred me to "Peggy" at a title company (I didn't get the name of the company) in Ketchum at 208-726-9341. Peggy said her company had handled the sale of the property between John Stevenson and Greg Carr. She also said that Mr. Stevenson had a document that stated he owned the land but NOT the water right. She further stated that there is nothing in their files showing ownership by Wood River Properties (Harry Rinker).

I called Jill Hansen back and told her that this was going to need some in-depth review and that it would be several months before we would be able to get to it. In the meantime she said she would talk to Peggy in Ketchum and see what she could find out about the Stevenson ownership of the land excluding the water right.

WATER RIGHTS EXAMINER'S REPORT-NARRATIVE
Permit No. 37-7822

Owner: Wood River Properties, Mr. Harry Rinker

Examiner: C.E. Brockway P.E.

Date: June 29, 1988

The field examination for beneficial use on Permit No 37-7822 was performed on June 25 and June 28, 1988.

The system consists of two diversions from the Big Wood River. Diversion 1, located just upstream of the Berteau residence and in the NE1/4, SE1/4, Sec 6, T3N, R18E BM and designated Rinker 11 by the watermaster, consists of a concrete structure with headwalls, a two(2) ft wide adjustable orifice, and a downstream lockable control gate. The opening of the orifice is adjustable in 1 inch increments on the stem. Some leakage occurs beneath the downstream control gate, primarily due to debris underneath the gate seat.. This leakage was estimated at 0.3 cfs on June 25, 1988. The discharge from this diversion currently flows through earthen ditch across a subdivision road and into a pond on the Berteau residence. From the pond it traverses two Gimlet subdivisions as shown on the accompanying map, and joins the flow from Rinker 11 on lot 15. There is currently a pond of approximately .3 acres recently constructed on this stream for which I can find no permit. It is the opinion of the watermaster that this pond was constructed without a permit. It does however, constitute a consumptive use and may contribute to seepage loss on this permit. The combined discharge is conveyed by natural channel under the road on lot 8 Gimlet 11 subdivision and thence returns to the Big Wood River on lot 31, Gimlet 11 subdivision in the SE1/4, NE1/4 Sec 7, T3N, R18E, BM.

Diversion 2, located in the NE1/4, SE1/4, Sec 6, T3N, R18E. BM and designated Rinker 11A by the watermaster, consists of a 42 inch corrugated metal pipe inlet with 42 inch Waterman gate. Water flows through the 42 inch pipe into a weir pool and through a 10 ft Cippoletti weir. The weir was recently raised to avoid submergence and now is a standard device. Discharge through the weir enters a recreation pond covering approximately .5 acres, thence through a wooden overflow structure and into an earthen channel. This flow then traverses through the subdivision, joining the flow from Rinker 11A, and thence returns to the river.

NOV 15 1991

Permit 37-7822 is for recreational and aesthetic purposes and has as one of the provisions of the permit, installation of an effluent water measuring device. In the event there are losses in the system, the loss was to be made up from ground-water. This stream, according to local residents and the watermaster, is a gaining stream during normal years and normal ground-water levels. In order to determine whether or not it is a gaining reach, two measurements were made of inflow and outflow. Using the weir at Rinker 11 and the submerged orifice at Rinker 11A, the inflow discharge was determined, and the effluent was measured by current meter on Lot 8 of the Gimlet 11 subdivision just upstream of the road crossing. On June 25, 1988, the inflow was measured at 8.03 cfs and the current metered outflow at 9.94 cfs for a gain of 1.91 cfs. On June 28, 1988 the inflow was 21.93 cfs and the current metered outflow was 22.27 cfs for a gain of .34 cfs. These measurements, made in a drouth period and at a time when ground-water levels are low indicate that the stream is still a gaining reach. For this reason, installation of a measuring device on the effluent of the system to substantiate system losses would be unnecessary and I am recommending that this provision of the permit be waived.

There are two other decreed rights under which water is diverted from the Rinker 11 diversion. Mr. Rinker has right 37-0154 under the Frost Decree for 22 miners inches for irrigation purposes and Mr. Berteau has a right 37-_____ for 20 miners inches. If there ever were substantiated losses in the system, the 22 miners inch right could be used to satisfy those losses rather than require ground-water pumping.

With the waiver of the effluent measuring device, all provisions of the permit have been met. I have instructed Mr. Rinker, that a permanent staff gage should be installed on the weir at the Rinker 11A diversion. The watermaster currently 'sticks' the weir.

An investigation should be made of the pond recently constructed on the channel from the Rinker 11 diversion to determine whether or not it is in violation of any statute. I believe the owner's name is Mr. Taylor.

Attn: Rita Fleck:

Dear Ms. Fleck:

Thank you for your letter of June 13, 1988.

Assuming that it is acceptable to you, what I would like to do is by a copy of this letter authorize Dr. Charles Brockway, a certified hydrologist, to inspect the subject property and certify to you the extent of beneficial use, as well as any other relative data relating to the property that you might require. Dr. Brockway has agreed to use his best efforts to accomplish this inspection prior to the July 1st date.

Should you have any questions, in the interest of time, I ask that you phone me collect so that we can make any additional adjustments or corrections, if necessary.

Thank you for your cooperation.

Sincerely,

Dear Mr. Rinker:

Re: Permit No. 37-7822

I acknowledge receipt of your letter dated June 6, 1988, however, it is unclear what you intend to do.

The notice letter sent to you requires the submittal of either the proof of beneficial use form and fee or the proof of beneficial use form and completed field report conducted by a certified water right examiner. If you choose to submit the proof form and fee, then the department will conduct the field inspection to determine the extent of beneficial use. If you choose to hire a certified water right examiner, in this case Charles Brockway, then he will conduct the field inspection and report the extent of beneficial use. Note that whichever you choose, the submittal must be made by July 1, 1988 to timely comply with the requirement of beneficial use.

For your quick reference, enclosed is a proof of beneficial use form and instruction sheet/fee schedule.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK

RE: Permit No. 37-7822

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

Subject: Field review of Gimlet Area

On 8/25/87 I reviewed the use of water for esthetic purposes at the subdivision along the Big Wood River near the old Gimlet Airport. Reid Newby was with me and Reid showed me the area because of some problem he has with this type of development. The aesthetic use is being established under approved permit 37-7822. Reid has been monitoring the development of these streams and is particularly disturbed with the practice of building ponds in the channels where the water has more of an opportunity to sink or evaporate. Reid indicates that the water sinks in the area where the water is ponded however further down the ditch water rises before returning to the river. Since this type of development is becoming commonplace in the Big Wood Valley Reid requests that we coordinate approval of these permits with him and also lend support in addressing this problem.

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT. (2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

Dear Keith:

Thank you for your letter of June 20 advising the Idaho Department of Water Resources of our need for a time extension of our Permit due to the recent flooding.

I thought I would give you a brief summary relative to the flood damage that has occurred this year. As you know my riprap application was approved by the Army Corps of Engineers and the Idaho Department of Water Resources and, after a lengthy presentation, was denied by the Blaine County Commissioners. My attorney, who sat through the hearings, said at the conclusion that I was stupid if I did not go ahead and riprap without approval. But, I did not and the results were absolutely disastrous as Dr. Brockway had predicted. Most of the other property owners in the valley disregarded the County and protected their property with riprap, many without either Army Corps or DWR permits.

The river broke over the bank and formed heavy erosion channels in several directions, tore through ten or fifteen improved lots without houses, damaged landscaping and yard improvements in several completed houses requiring sandbagging to save the houses themselves. After all of the foregoing was underway the Commissioners then came to the site and belatedly gave us permission to riprap. The work was extremely difficult because we had to build a dike over the flood waters to get the trucks into the proper area for dumping.

The complete financial loss is yet to be totalled but to date we have a bill for the emergency riprap work of \$65,000 and I am not at all sure whether that can be considered a permanent protection or if it will have to be removed and replaced by a proper installation similar to the original one approved by the Army Corps and DWR. Incidentally, the bid for that work was only \$27,000. The added costs for the repair and reconstruction of the roads, landscaping, yard improvements and lot erosion will probably be an additional \$60,000 to \$100,000.

Dear Mr. Anderson:

The Department is in receipt of your letter dated June 20, 1983, relative to commencement of works in connection with the above referenced permit.

The amendment in 1982 to Sec. 42-204, Idaho Code, provided that construction of works must start within one (1) year of permit issuance, provided b) the exception as referred to in your letter, i.e. "unless temporarily interrupted through no fault of the holder of the permit by circumstances over which he has no control", but c) did not provide a mechanism by which the Director could grant an extension.

Since no extension procedure was described in the amended Code section, the Department will place your letter in the water right file for future reference, should some questions be raised relative to the timing of the start of construction.

Please feel free to contact me if I can be of further assistance.

Re: Permit 37-7822
Wood River Properties, Inc.

Dear Ken:

Anderson & Kelly, as attorney-in-fact for Wood River Properties, Inc., received some time ago a postcard from your Department to be returned by July 1, 1983 concerning commencement of works.

We are writing this letter in support of a request for extension of time to begin construction since the explanation is too much to go on the card!

This is a permit to divert 20 cfs for non-consumptive use (esthetic and recreation) from the Big Wood River, returning it to the river a short distance downstream. There are no existing diversions between the proposed point of diversion and point of return.

The applicant has completed preliminary engineering and design for the diversion structure and earlier this year received approvals from both the Corps of Engineers and your Department of Water Resources. Prior to the high water runoff this year, however, his application to construct with the necessary riprap was denied by Blaine County.

Shortly thereafter the flooding occurred with record high stream flows. It was necessary to construct an emergency dike the entire length of the property but even that was inadequate to prevent severe impacts.

The applicant is anxious to begin construction as soon as practicable, but as a result of the extreme flooding it appears necessary to prepare a new master plan of development--and it may be necessary to relocate the diversion structure. The original plan called for using natural high-water channels for conveyance and obviously some of these have shifted.

We feel that the foregoing constitutes "reasons beyond the applicant's control" and respectfully request an extension of time to commence construction.

Re: Application for Permit
Wood River Properties Inc.

Dear Steve:

Enclosed is an application for permit to appropriate 20 cfs for recreation and esthetic uses from the Big Wood River. This is the application that I have discussed previously with you and Ken Dunn.

Also enclosed is a Power of Attorney form, duly completed by the applicant, designating Anderson & Kelly as attorney-in-fact for this application, together with our check #1058 in the amount of \$225.00 for the application fee.

In the event that you or members of your staff have any questions concerning this application, please do not hesitate to call us.

Sincerely,

ANDERSON & KELLY
