**Re: Space Acres Water Users Drinking Water System
Pocatello, Bannock County.**

Dear Mr. Howell:

We received a copy of a water right application from Idaho Department of Water Resources (IDWR) for the above referenced water system. The application states that the Space Acres development currently contains eleven water connections and is planning to expand to thirteen. Under Idaho Code 39-118, we (IDEQ) are statutorily obligated to review and approve the plans and specifications for new public water supply systems and public water treatment systems when the facilities serve ten (10) or more connections.

Please provide this office with plans for above referenced water system by July 31, 2003. The submitted plans must depict the intended connections and must be approved by this office prior to construction. I have attached is a letter explaining the plan and specifications checklists required for our approval.

A copy of the submitted documents will be kept on file at this office. If you have any questions regarding this letter or if we can be of further assistance, please contact me at (208) 236-6160 or via Email at jkirkpat@deq.state.id.us.

Sincerely,

John S Kirkpatrick

RE: Drinking Water, Wastewater, and Stormwater Facilities Checklists

Dear Mayor, Engineer, Manager, Owner, or Operator:

We are sending this letter to inform all interest parties, that we have moved our plan and specifications checklist to an electronic format. This move was created in an effort to provide more accessible guidance and documentation for the review and approval of plans and specifications of water, wastewater, and stormwater projects. The checklists are located at the following site: <http://www2.state.id.us/deq/water/wastewater/checklists/checklists>. These documents are self-explanatory and apply to the design of new water, wastewater, and stormwater systems as well as modifications and expansions of existing systems.

The General Plan and Specification Review Checklist will replace our current Administrative Checklist. This checklist will be required for all water, wastewater, and stormwater projects. We will utilize the current general water system checklist until an updated version is created. We are issuing this notice to remind all those operating in the water and wastewater fields of the requirements to secure DEQ approval of plans and specifications for water, wastewater, and stormwater projects prior to construction.

Please use these new checklists and the updated Catalog for Stormwater Best Management Practices (BMP) catalog as soon as possible. The stormwater BMP manual is also located on our state web page at the following location: http://www2.state.id.us/deq/water/stormwater_catalog/index.asp. If you are not able to utilize the above listed websites or you do not have access to the Internet, we can provide a copy of this information on a compact disc.

We hope to provide more informational updates in the near future. If you have any questions, please contact Chuck Ketterman (Water Quality Engineer) or I and we will be pleased to respond.

Sincerely,

John S Kirkpatrick

RE: Permit No. 29-13555

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.
