The POU is R072618A

The POD North Spring R072619A

" " South Spring R072619B

Mr. Crawford felt the flows were probably down this year because the collection boxes for the springs had lower water levels in them.

The permit asked for .04 cfs. I feel this is a justified flow given my measurement of 15 gpm in a drought year.

The ranch runs an average of 250 head of cattle. This year they are running less because of concerns over water and feed.

Re: Permit No. 25-07559

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, it is unacceptable as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater source.
2. The rate of diversion must be .04 cfs or less.

As you can see, you do not meet requirement #1 since you use a spring (surface water) for your source. Therefore, a license examination fee of \$50 applies to your permit. I have enclosed a copy of the Instructions for the Proof of Beneficial Use for your convenience.

Please return the proof of beneficial use and the \$50 license exam fee as soon as possible.

If you have any questions or if I can be of any further assistance, please feel to contact me.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 25-07559

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 25-07559

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

RE: Application for Permit No. 25-7559

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Caribou County Sun on. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
