Gentlemen:

This letter is in request of a waiver for my permit No. 47-7232 for the inlet measuring device. I have contacted Gary Funderburg of the Twin Falls District, and he has suggested I submit this letter on the basis that the springs divert directly into the fish ponds as where there is a situation where a measuring device could not be installed.

I have installed a measuring device at the outlet of each pond for measurement of the water. Please contact me as to my understanding that a field report has been submitted and completed to your office for licensing.

Dear Ms. Baggett:

One of the conditions of approval of your water Permit No. 47-7232 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
