Affidavit of Publication

No 14129

STATE OF IDAHO,

COUNTY OF TWIN FALLS

ss.

I, Mable S. Clark, being first duly sworn upon

oath depose and say that I am Office Manager of the TIMES-NEWS, published daily, except Saturday, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for two consecutive Thursdays, commencing with the issue dated

June 12, 1969, and ending with the issue dated June 19, 1969.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Mable S. Clark
Subscribed and sworn to before me this 19th day of

June, 1969.

W. W. Hargrave
Notary Public in and for the County of Twin Falls,
State of Idaho, residing at Twin Falls, Idaho.

MEMORANDUM

TO: Transfer #5685, #5695, #5696, #5698, and #5704 Files

FROM: Corey Skinner *CS*

DATE: March 31, 2000

SUBJECT: Staff Review

Transfer Applications #5685, #5695, #5696, #5698, and #5704 are all related applications filed by Paul Duncan, Jackson Farms, &/or Duncan Limited Partnership. The applications involve water rights that are appurtenant to farms located a few miles southwest of Minidoka Dam. Since the applications involve the same farms, they should be processed together as a package. I assisted Paul Duncan with filing the applications earlier this year.

Mr. Duncan initially filed transfer #5685 in January of this year. This particular transfer proposes drying up 240 acres from several farms and transferring these acres to land located a few miles north of Minidoka Dam. Note that this would result in transferring water rights from Basin 45, across the Snake River, to Basin 36. The acres that are to be dried up consist of various pivot corners located on the farms southwest of Minidoka Dam. While going over the irrigation systems for these farms, operated by Mr. Duncan and his father, several problems were noted with the water rights associated with the farms. These problems related to differences in how the rights were licensed and how the rights are actually used (which wells serve which farms, the overall diversion rate per farm, etc.). Transfers #5695, #5696, #5698, and #5704 were filed to address the differences in the licensed rights and how the water is actually used on the farms. A brief summary of each of the applications would be as follows.

Transfer #5685 was filed to move portions of water rights 45-07462A, 45-07232A, 45-07232B, 45-02429, 45-02616, 45-02460, 45-02461, 45-02457 to a new point of diversion and a new place of use. The new point of diversion consists of a new well to be drilled. The proposed well will be the same well that is proposed to be drilled in Transfer #5638 (filed 09/03/1999 by Duncan Limited Partnership). The proposed place of use will consist of two 128 acre pivot sprinkler systems. The transfer only proposes moving 240 acres worth of water rights. Mr. Duncan said that he will only irrigate 240 acres, until he transfers additional water rights to irrigate all of the land under the two pivots (256 acres). The transfer proposes a 256 acre permissible place of use to give Mr. Duncan flexibility in his irrigation system. The acres that are being moved through Transfer #5685 consist of pivot corners from several farms. The acreage amounts being transferred consist of irrigated ground and do not include any ground under roadways or buildings.

T # 5685

Transfer #5695 involves a farm located in the East ½ of Section 29 (T09S, R25E). Currently part of water right 45-02616 is appurtenant to this farm. License 45-02616 allows for the diversion of 6.17 cfs, from two wells, for the irrigation of 400 acres. Note that the licensed place of use includes land outside of Section 29, and does not include the SWNE ¼ of Section 29. SRBA claim A45-02616 claims a 440 acre place of use, with the extra 40 acres being in the SWNE ¼ of Section 29. In reality, only one well is used to irrigate the East ½ of Section 29, and the SWNE ¼ is also irrigated. Transfer #5695 proposes taking the Section 29 licensed acres remaining after Transfer #5685, and shifting the acres around to cover two 125 acre pivots in the East ½ of Section 29.

Transfer #5696 involves a farm located in the North ½ of Section 33 (T09S, R25E). Currently, parts of water rights 45-02616 and 45-02429 are appurtenant to this farm. A single well, located in the NWSENE ¼ of Section 33, is used to irrigate this farm. License 45-02616, and the corresponding SRBA claim, list points of diversion that are actually used to irrigate other farms. In addition, license 45-02616 (and the corresponding SRBA claim) and license 45-02429 (and the corresponding SRBA claim) list land that is not part of the farm located in the North ½ of Section 33. Transfer #5696 proposes describing the correct system (place of use and well) for the farm located in the North ½ of Section 33 (T09S, R25E).

Transfers #5698 and #5704 involve shifting water rights between two different farms. One of the farms is located in part of the South ½ of Section 28 (T09S, R25E) and part of the North ½ of Section 33 (T09S, R25E). The second farm is located in the South ½ of Section 27 (T09S, R25E). The first farm has portions of water rights 45-02429, 45-02616, and 45-04241 appurtenant to the property. Water right 45-02457 is appurtenant to the second farm. Transfers #5698 and #5704 propose shifting the remaining water right portions (leftover after Transfers #5685, #5695, and #5696) between the two farms. This will provide a more desirable diversion rate for the two farms. In addition, Transfer #5704 identifies the correct point of diversion for the farm located in Sections 28 and 33.

Transfers #5685, #5695, #5696, #5698, and #5704 should be fairly straightforward. However, the Department may want to carefully consider the possible impacts of moving water rights from Basin 45 to Basin 36 as proposed in Transfer #5685. In addition, one of the water rights, 45-04241, involved with Transfers #5698 and #5704 is a statutory claim. There appears to be some issues with claim 45-04241 that need to be considered when acting on Transfers #5698 and #5704.

Examination of claim 45-04241 (A45-04241) reveals that a diversion rate of 0.60 cfs for the irrigation of 40.0 acres, has been claimed. A priority date of June 01, 1957 has

Page 3

Transfer #5685, #5695, #5696, #5698, and #5704 Memo
March 31, 2000

been claimed. The claimed points of diversion are two wells with one well being located in the SWSWNW ¼ of Section 28 (T09S, R25E) and the other well being located in the NWSENE ¼ of Section 33 (T09S, R25E). While assisting Mr. Duncan with preparing the application, I discussed the need to provide evidence to substantiate claim 45-04241. Mr. Duncan indicated that he probably would be unable to obtain much in the way of information that could substantiate the claim. Mr. Duncan and I researched the Department's records in an attempt to obtain information regarding claim 45-04241. It appears that the flow rate for the well located in the SENE ¼ of Section 33 (T09S, R25E) was determined to be 4.0 cfs, during the 1958 licensing exam for right 45-02429. This entire 4.0 cfs flow rate was licensed under water right 45-02429. Therefore, it appears that there is no justification for additional flow with a 1957 priority date, from this particular well. The other claimed well is described as being located in the SWSWNW ¼ of Section 28 (T09S, R25E). However, there is not a well located at this particular location. There is an irrigation well located in the SWSW ¼ of Section 28, but well logs indicate that it was not drilled until the early 1970's, as a result of an approved transfer application involving water right 45-02616. Therefore, it appears that there is not a justification for the flow rate claimed by claim 45-04241 (A45-04241), certainly not with a 1957 priority date. However, judging by NAPP photos and the 1976 orthophoto quad, it appears that there is justification for the acres, possibly as an expansion claim, claimed by 45-04241 (A45-04241). If the Department approves Transfers #5698 and #5704, there should probably not be any diversion rate authorized for right 45-04241, but it appears that the claimed 40 acres of irrigation could be allowed.

Re: Permit No. 47-2429 (G-32874)

Twin Falls Inns, Inc.
1350 Blue Lakes Blvd.
Twin Falls, Idaho 83301

Gentlemen:

A representative from this department has made an examination of your works covered by Permit 47-2429. The works were found capable of producing 0.78 c.f.s. of which 0.78 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for domestic and irrigation purposes within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 3, Twp. 10 S., Rge. 17 E., B.M..

If you disagree with the findings, please advise us within 10 days; otherwise, a license will be issued showing the findings as set forth in this letter.

Very truly yours,

Donald W. McEldowney

Re: Twin Falls Inns, Inc.

Dear Mr. McEldowney:

Mr. Charlie Sieber of the Holiday Inn in Twin Falls just handed to me your letter dated May 12, 1969, together with a copy of the notice of approved application for water.

At the time I completed the proof of application of water to beneficial use I was not aware that the notice had not been published in the Times-News in Twin Falls, Idaho. I am one of the officers of this corporation and this letter to you is authorization to you to have the notice published at the expense of the applicant and then have the bill for this publication sent to our office and we will see that it is paid.

If any additional information is needed concerning this matter, please feel free to contact me.

Sincerely yours,

Gentlemen:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit.

Enclosed you will find a copy of the legal notice we sent you on March 3, 1969. We need your signature authorizing the Department to cause this legal notice to be published in the Times News, Twin Falls, Idaho for two consecutive weeks. Before a license can be issued you must submit an affidavit of publication to this department. The affidavit of publication may be obtained from the Times News upon payment of the bill of publication.

Prior to the issuance of the license a field examination must also be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Re: Permit No. G-32874

Dear Keith:

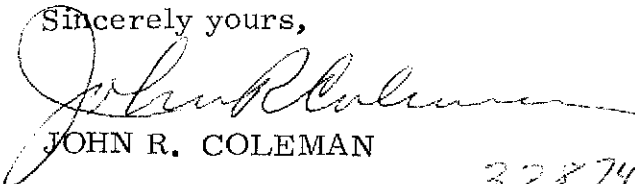

With regard to the above matter I am enclosing herewith Proof of Application of Water to Beneficial Use, which proof is being submitted for the purpose of having the license issued on the well involved.

I have prepared with the help of Mr. Neilsen, the President of Twin Falls Inns, Inc., Mr. Bob Thornton, the Superintendent of Grounds and Physical Plant at the Holiday Inn of Twin Falls, and Mr. George Gailey, the well driller, the enclosed Proof of Application of Water to Beneficial Use. The figures concerning the feet of four inch lateral pipe are accurate within a few feet. The footage figures for the sprinkler lines consisting of one inch and one and one-quarter inch pipe are approximate figures and is fairly accurate. The figure concerning the number of sprinkler heads is taken directly from the blue print for the sprinkling system. We did not attempt to count the sprinkler heads nor determine the amount of sprinkler lines involved in watering the grounds and courtyard surrounding the motel. However, all of the irrigation on the property is done through the system served by the well. This may be one irrigation system which you should inspect prior to the issuing of the license and take advantage of the golf course during your inspection.

If any additional information is needed to complete this matter, please feel free to contact me and I will be happy to try and obtain any information which you need.

With best personal regards.

Sincerely yours,

JOHN R. COLEMAN

Re: Permit No. G-32874

Twin Falls Inns, Inc.,
1380 Blue Lakes Blvd.,
Twin Falls, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Higginson:

Pursuant to our conference of yesterday morning, I am enclosing herewith the application for a permit to appropriate ground waters executed by Twin Falls Inns, Inc. Also enclosed herewith is our check payable to your order in the amount of \$5.00 to cover the filing fee.

As you will note in the remarks in the application, I have set forth the fact that we are applying for more water than the statutory 1 inch per acre but that in any one year it is not anticipated that more water would be pumped than the statutory amount. The Twin Falls Inns, Inc., is the corporation owning and operating the Holiday Inns of America franchised motel in Twin Falls, Idaho. The water from the well will be used primarily for the irrigation of a golf course. However, there will be domestic uses made of the water as well as those for irrigation purposes.

At the time the permit to appropriate is issued, would you please return it to our office so that we may keep a record of the time that necessary proofs must be made. If you have any questions concerning this matter, please feel free to contact me.

Sincerely yours,
