STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name: JOHN A CATEY 208-375-0674
Address: 9900 LOS RANCHITOS
BOISE ID 83709
AND/OR
Name: DOROTHY A CATEY 208-375-0674
Address: 9900 LOS RANCHITOS
BOISE ID 83709

2. Source: GROUNDWATER Trib. to:
3. Location of Point of Diversion: NENW Sec. 14, Township 03N, Range 01E
ADA County

4. Water will be used for the following purposes:

Purpose	From	To	CFS	(or)	AF
IRRIGATION	03/15	11/15	0.020		
DOMESTIC	01/01	12/31	0.040		

5. Total quantity to be appropriated is:
0.060 CFS (and/or) AF

6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc.
WELL, PUMP & SPRINKLERS
b. Height of storage dam feet; active reservoir capacity
acre-feet; total reservoir capacity acre-feet; period of
year when water will be diverted to storage: to inclusive.
c. Proposed well diameter is 8 inches; proposed depth of well is 200
feet.
d. Is groundwater with a temperature greater than 90F being sought? NO
7. Time required for the completion of the works and application of
the water to the proposed beneficial use is 1 years.

8. Description of proposed uses:

Supplemental Irrigation

1993 - Moratorium
Held

9. Place of Use: IRRIGATION

TWN RGE SEC	ACRES	ACRES	ACRES	TOTAL
03N 01E 14	NENW 1			1

Total number of acres irrigated: 1

Place of Use: DOMESTIC, same as IRRIGATION use

10. Describe any other water rights used for the same purposes.

11. a. Who owns the property at the point of diversion?

APPLICANT

b. Who owns the land to be irrigated or place of use?

APPLICANT

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing.

12. Remarks:

Domestic use is for 1 home.

Place of use AKA LOT 6 Bk 1, Town and Country Estates #5.

13. Map of proposed point of diversion and place of use attached? ☒

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

PHILIP E. BATT
GOVERNOR

KARL J. DREHER
DIRECTOR

May 19, 1995

**Distribution: Applicants Whose Water Right Applications Were Held
Without Action Under the Boise River Basin
Moratorium**

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

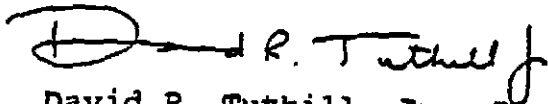

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

May 19, 1995

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.
Manager, Western Region Office

RE: Application for Permit #63-11910

Dear Applicant:

Your application for permit to appropriate ground water for supplemental irrigation and domestic uses was received on 8/4/1992. At that time, the application was reviewed and advertised, and placed on hold. Only recently was it discovered that you may not have received any correspondence pertaining to the status of that application. I apologize for our error.

By now, you are no doubt aware that most of southern Idaho has been placed under drought moratorium. Due to the continued drought and to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/1992 concerning water right applications proposing new consumptive uses of public water. Some exemptions were available in 1992 for supplemental uses. However, at the completion of the advertising period for your application, it was felt that there was not adequate time frame remaining in the irrigation season for any substantial beneficial use under the permit, so the file was placed on hold for possible approval prior to the 1993 season.

Criteria for the 1993 irrigation season have not yet been determined by the director. Because of the increased winter snowpack, surface water supplies may be adequate for the entire season. Unless there is a shortage of surface water (canal water) projected, we will likely not consider supplemental approvals for 1993. This office will continue to hold your application pending 1993 decisions, and will inform you of any changes. Delays related to department decisions do not affect the date of priority or seniority of your application.

The domestic (household) use of your well, including irrigation of up to $\frac{1}{2}$ acre of lawn and/or garden, is unaffected by the moratorium. Domestic uses of groundwater are exempted under Idaho law. Though not required, the domestic use listed on your application may be permitted separately if you wish.

If you have questions, please feel free to contact me at 334-2190.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent

State of Idaho

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date 8-4-92

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum distance of 50 feet and 100 feet respectively from a septic tank.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

Signature of Authorized Department Representative

Groundwater Protection Section
Title

Receipt No. 025136 Received by SC Fee 200⁰⁰ Date 8/4/92

EXTENSION OF DRILLING PERMIT

Extension approved by _____ Approval Date _____

This extension is good for 60 days beyond the above extension approval date.

MORATORIUM EXEMPTION QUESTIONNAIRE

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?
yes
- Do you summer fallow any of your irrigated land? If so, how many acres? *No*
- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the canal company or water district.
Nampa Meridian Irrigation District
- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season? *8*
- What crops have you grown in the past ten years?
lawn & garden

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 4 day of August, 1992.

Signature
