Subject: P/D's, OTHER WATER RIGHTS

Three P/D exist and are used for irrigation. The NESE, sec 20
P/D is a proposed well. The well in the NWNE, sec 29 was not
recorded but drilled in 1972...applicant sure well was applied
for and is checking records for evidence. P/D in the NWNW,
sec 29 also supplies water to license 63-08604. P/D in SESE,
sec 20 also supplies water to license 63-07270. The
groundwater is combined with Boise/Kuna Irrigation water and
used to irrigate 780 total acres as one system.
Applicant telephoned saying no. 63-07710 license represents well
in NWNE, sec 29. After checking records, 63-07710 was cancelled
in 1978 because measuring device was never installed.

RE: Your letter of February 20, 2003 regarding Application for Permit 63-11777.

Dear Mr Hatfield:

Your letter will be placed in the permanent folder for Application for Permit 63-11777 for future reference. This application is currently being held from processing for regional concerns and we cannot predict when processing will resume. Since the application has been advertised twice, another public notice may not be required.

In order to be sure your concerns are considered whenever the next action on this application does occur, you may want to submit a more specific statement describing any negative impacts you feel may result from approval of application 63-11777.

If you require additional information regarding this matter, please call me directly at (208) 327-7943, e-mail me at pskaggs@idwr.state.id.us or contact me by mail, and I will be happy to assist you.

Sincerely,

Pamela S. Skaggs

To whom it may concern:

I have an interest in this water right application NO. 63-11777, because we are a neighboring property owner where use could occur, or nearby where use could occur. We do not receive an Idaho Statesman Paper and this is why we are requesting to be informed in writing by Idaho Department of Water resources when this Application is processed.

**Distribution: Applicants Whose Water Right Applications Were Held
Without Action Under the Boise River Basin
Moratorium**

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

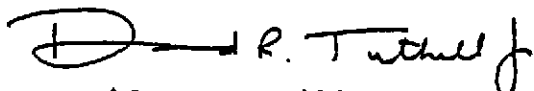

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

May 19, 1995

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.

PANCHERI OVERLAP ANALYSIS

BASIC DATA: On 4/1/1992, IDWR received a complaint from Ray and Kathy Barrett regarding Duane Pancheri pumping groundwater to areas not permitted or licensed. As a result, Mr. Pancheri filed application 63-11777 on all his acres that his groundwater could be applied. This application overlapped with licenses 63-08604 and 63-07270. After further review, Mr. Pancheri filed transfer 63-08604 to reflect the acres he felt were actually irrigated during the 1981 field exam. Mr. Pancheri claims IDWR did not accurately understand his surface/ground water system at the time of the exam which was reflected in the P/U recommendation. Since the lands covered on 63-07270 and 63-08604 were licensed below their maximum allowable statutory rate, the purpose of application 63-11777 is to cover the difference between the old rate and the allowable rate on those licensed acres and the full rate on acres not previously licensed.

ANALYSIS: 63-07270 = 1.41 cfs/155 acres = .0091 cfs old rate
.02 cfs - .0091 cfs = .0109 cfs difference
.0109 x 151 = 1.64 cfs left to license
(-4 acres overlapped with 63-08604 after transfer filed)

63-08604 = 2.72 cfs/319 acres = .0085 cfs old rate
.02 cfs - .0085 cfs = .0115 cfs difference
.0115 x 315 = 3.62 cfs left to license
(-4 acres overlapped with 63-07270)

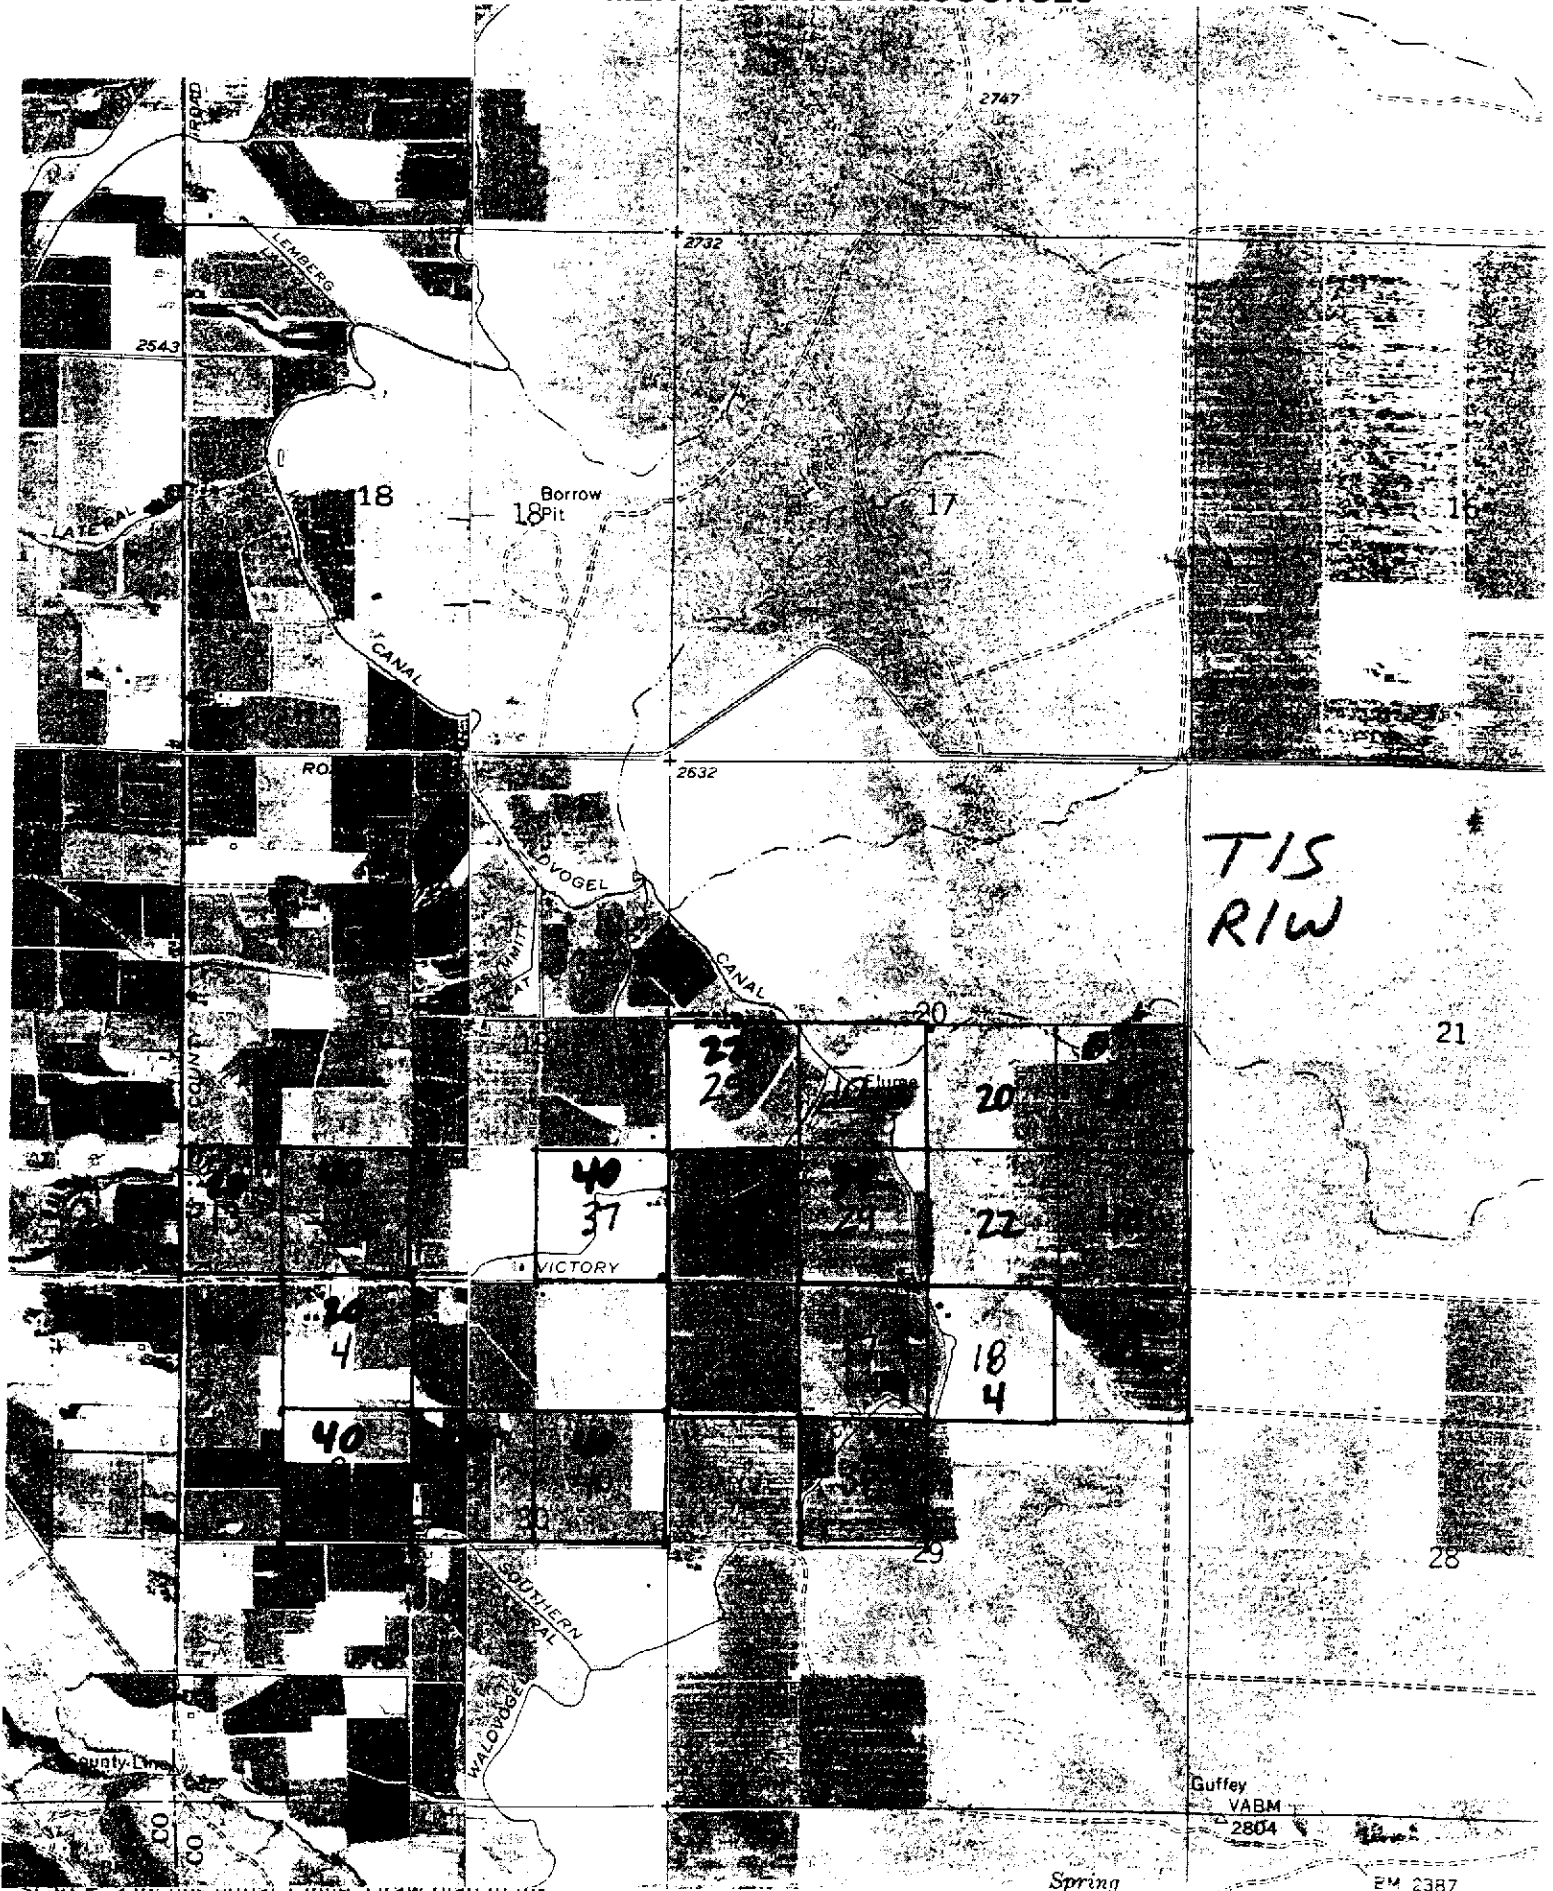

231 acres not licensed x .02 cfs = 4.62 cfs

1.64 + 3.62 + 4.62 = 9.88 cfs allowable under application 63-11777 if amended
(priority would need to be advanced and right would be subject to 1993 moratorium conditions)

Re: Application for Permit No. 63-11777

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced application. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

Please contact this office if you have questions regarding this procedure.

Sincerely,

DAVID R. TUTHILL, JR., P.E.

Re: Application for Permit No. 63-11777 in the Name of Duane Pancheri

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Reason of protest is for protection
of domestic/livestock well - We lost 1
well from the drought of 77 and had
to drill a new well as result of
irrigation wells. I feel these wells
should be metered and that wells
+ should be handled with some
thought to ground water which
is not being replaced. I don't
think that permits should be
issued for more water diversion
+ more wells till nature

Can replace groundwater. Therefore I
am protesting this application for

Department of Water Resources MORATORIUM EXEMPTION QUESTIONNAIRE

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE
COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?

Yes Baise Kuna Irrigation District

- Do you summer fallow any of your irrigated land? If so, how many acres?

31 acres for the first time this year, due to short water supply from Baise Kuna

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the name of canal or water district.

Baise Kuna

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

16 years

- What crops have you grown in the past ten years?

Beets, corn, Potatoes, Grain, Hay, Beans, Onions

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 1 day of June, 1992.

RE: Application for Permit #63-11777
Large Diversion Information Requirement

Dear Mr. Pancheri:

Your recent application for permit for a new water right will be advertised and processed but cannot be approved until additional information is submitted.

Based on Idaho Code 42-203A(5)(a-e), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. In your application, the irrigation of approximately 405 acres using 8.1 cfs described in your application triggers the requirement in 42-203(5)(a-e). Please provide information relating to the proposed water right as outlined in the attached copy of Water Appropriation Rules 4,5,3,1 through 4,5,3,5,1. This covers the following items:

- a) effect on existing water rights,
- b) sufficiency of water supply,
- c) good faith, delay, or speculative purposes,
- d) financial resources,
- e) local public interest.

You may summarize any of the answers with a brief statement where appropriate.

Please let me know if I can do anything for you in this regard. A response within 30 days would be appreciated.

Sincerely,

Lori Graves
