**Distribution: Applicants Whose Water Right Applications Were Held
Without Action Under the Boise River Basin
Moratorium**

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

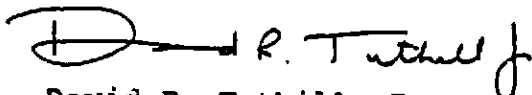

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

May 19, 1995

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.

RE: APPLICATION FOR PERMIT NO. 63-11773

Dear Applicants:

Enclosed is a previous mailing made to your former address on Bennett Road. This material was returned to this office as undeliverable. The Canyon County Assessor's office provided your current address.

Please review the information regarding your 1992 water right application no. 63-11773 for a proposed well to irrigate 97 acres (see computer printout report for details). I am contacting you to determine what to do with your application.

Applications for Permit are personal property not automatically transferred by sale of land. If another party now owns the 97 acres, you might want to assign the application to the new owner by completing the enclosed Assignment form and giving the previously mailed information to the new owner. If you retain ownership of the acres or other possessory interest in the land (leasing, contracting to operate, etc.), please complete your response as indicated in the original material previously sent to you (Withdrawal or Response form to proceed).

Please respond as soon as possible by writing to me or calling 334-2190. Thank you for your help in this matter.

Sincerely,

Steve Lester
Water Rights Supervisor

RE: Application for Permit No. 63-11773

Dear Applicant(s):

On May 21, 1992, the Department of Water Resources sent you a letter explaining that a moratorium had been declared on the approval of certain pending and future applications to appropriate water in the Snake River Basin.

The letter included a request to complete and return to us a "Moratorium Exemption Questionnaire". The information would determine whether your proposed use(s) would qualify for the supplemental irrigation exemption, be partially approved, or be held without action. As of this date, the Department has not received the questionnaire. Enclosed is another one for your convenience.

Please return the questionnaire within twenty (20) days of the date of mailing of this letter, or the Department will initiate proceedings to void your application.

If you have any questions regarding this request, please contact me immediately at 327-5452.

Sincerely,

A handwritten signature in cursive script that reads "Brenda L. Miller".
