I am the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. 63-11756, and request that the permit and permit map be amended and/or changed as follows:

Purpose of Amendment: ☒ Change point of diversion ☐ Add point of diversion
☒ Change place of use ☐ Change nature of use ☐ Change period of use ☐ Other

1. Point of diversion: 1/4 SW 1/4 NE 1/4, Section 7, Township 4N, Range 5W, B.M.,
County of Canyon. Other points of diversion None

2. Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)

Amount 3.7 for IRR purposes from 3-15 to 11-15 (both dates inclusive)
(cfs or acre feet per annum) (water use) (Begin month) (End month)

Amount for purposes from to (both dates inclusive)
(cfs or acre feet per annum) (water use) (Begin month) (End month)

Amount for purposes from to (both dates inclusive)
(cfs or acre feet per annum) (water use) (Begin month) (End month)

3. Place of use or land to be irrigated: *Limited to the irrigation of 185.8 acres within the place of use described below in a single irrigation season.

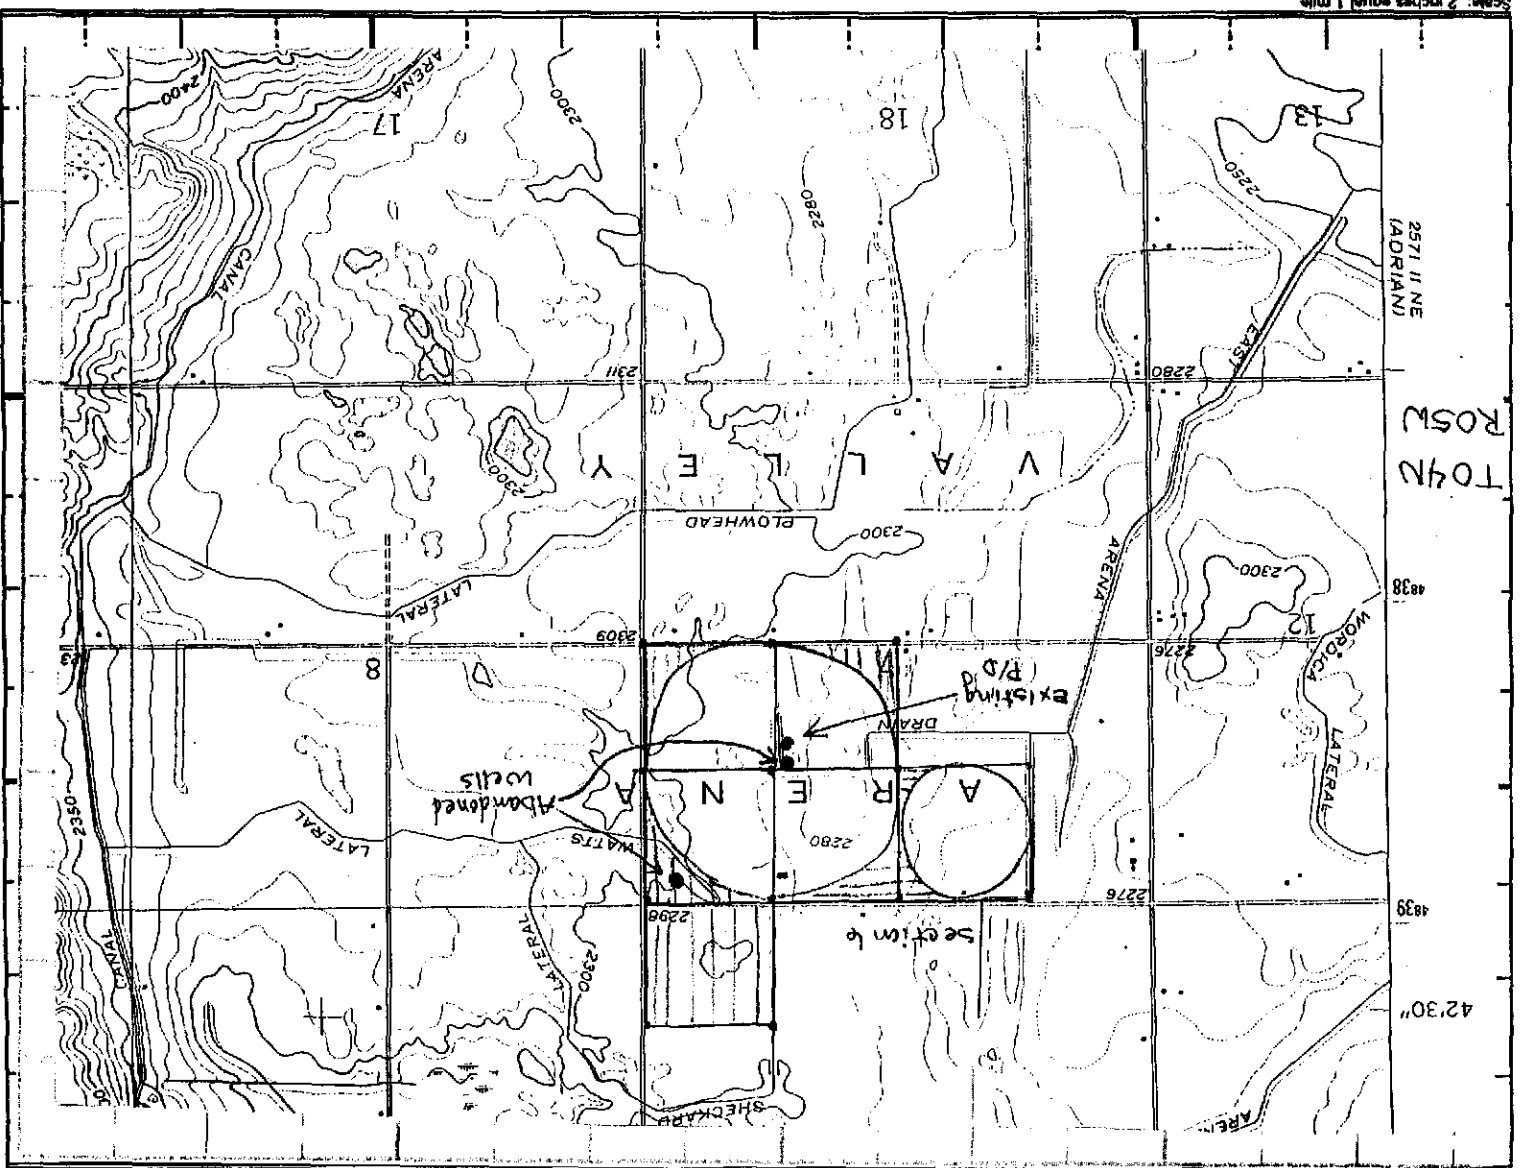

T w p	R g e	S e c	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
4N	5W	6																38	38.0
		7	40	33.5	35.5	39.0	37.8												185.8

Total number of acres to be irrigated = *223.8

4. a. Who owns the property at the point of diversion? Applicant
b. Who owns the land to be irrigated at the place of use? Applicant
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

Permit To Appropriate Water Expired

NO. 63-11756

Proposed Priority: March 18, 1992 Maximum Diversion Rate: 1.60 CFS
This is to certify, that WILLIAM SORRELL

ELIZABETH A SORRELL
29249 W HOWE
WILDER ID 83676

has applied for a permit to appropriate water from: GROUNDWATER
and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 11/15	1.60 CFS

LOCATION OF POINT(S) OF DIVERSION: SENE, Sec. 7, Township 04N, Range 05W
CANYON County

<u>PLACE OF USE:</u>	<u>IRRIGATION</u>					
<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
04N	05W	7	NENE 40	NWNE 40		

Total number of acres irrigated: 80

CONDITIONS/REMARKS:

1. This permit to appropriate water expires at the end of the 1992 irrigation season. The Director retains jurisdiction to reinstate the permit if drought conditions justify resumption of groundwater use.
2. A well drilled pursuant to this permit must be located at least 500 feet from any existing well. Well spacing closer than 500 feet must be approved by the Department of Water Resources.
3. This right to divert groundwater is void if the surface water right appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
4. The permit holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this permit.
5. The permit holder must employ reasonably efficient methods of water application to conserve the water of the State of Idaho.
6. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
7. Construction of the well must comply with Idaho well construction standards.
8. This right is subject to all prior rights.

=====

At Jim Johnson's instructions I updated the WR2 database to show J.R. Simplot as the current holder of the subject permit.

No letter was sent to J.R. Simplot confirming the acceptance of the assignment and the updating of our database. *because it is still an application of perm.t.*

Database on P63-11756 has been updated

MAILED

OCT 30 1997

MEMORANDUM

DATE: June 5, 1996

TO: File 63-11756

FROM: Shelley W. Keen *SWK*

RE: Attempt to contact the applicant

This morning I tried to call William or Elizabeth Sorrell to discuss their application for permit, no. 63-11756. The phone number listed on their application, 208-482-7331, is no longer in service. The Wilder telephone directory lists the same number for them.

I wanted to discuss with the Sorrells whether they want the application processed now or later. Processing now will establish the poof of beneficial use deadline that may limit the Sorrells' right to 33 acres, the number irrigated under a prior temporary approval of this application. Processing later will result forestall the establishment of a proof due deadline and could, thereby, result in a larger right over the long run.

At this point, I recommend holding the file until the Sorrells can be located.

Conditions of Approval:

- 066 - Prior to diversion of water under this right, the right holder
 - shall install a suitable measuring device or shall enter into an
 - agreement with the department to use power records to determine
 - the amount of water diverted from each point of diversion listed
 - under this right.
- 067 - The right holder shall measure and annually report diversions of
 - water and other pertinent hydrologic and system information as
 - required by Section 42-701(5), Idaho Code.
- 065 - The right holder shall use the full allotment of appurtenant
 - surface water rights in conjunction with groundwater diverted
 - under this right and shall only divert groundwater under this
 - right when water from the appurtenant surface water rights cannot
 - be delivered to the right holder.
- 03A - The rate of diversion of water for irrigation under this right
 - and all other water rights on the same land shall not exceed 0.02
 - cubic feet per second for each acre of land.
- 068 - This approval does not authorize the construction of any new well
 - or the deepening or enlargement of any existing well.
- 069 - Failure to comply with any condition of approval is cause for the
 - Director to cancel this right.

Remarks: This right is limited to the irrigation of 33.5 acres in the place of use described above in a single irrigation season. This right uses the same well as Rights 63-02678, 63-03282, and 63-03559 and when combined with these rights is limited to the irrigation of 193.5 total acres in the place of use described above in a single irrigation season. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use. This permit does not authorize the development and irrigation of land not previously irrigated under prior temporary approval of this application. Water bearing zone to be appropriated is 230 to 270 feet.

There for this permit approved for (160 + 33.5 ac)
193.5 acs within 223.8.

$$\begin{aligned} \text{Flow approved} &= (193.5 \text{ ac} \times 0.02 \text{ cfs/ac}) - (1.14 + 1.04 + 0.56) \\ &= 3.87 - 2.74 \\ &= 1.13 \text{ cfs.} \end{aligned}$$

MEMORANDUM

TO: Application for Permit No. 63-11756
FROM: Dave Tuthill *DT*
DATE: February 20, 1996
RE: Review of Application

In accordance with Order Condition No. 3 of the Boise River Basin Amended Moratorium Order dated May 3, 1995, this application has been reviewed and screened by the Department. The review committee consisted of the following personnel:

Mark Slifka, representing well construction concerns.
Janet Crockett, representing water quality concerns.
Shane Bendixsen, representing hydrologic concerns.
Jim Johnson, representing water allocation concerns.
Dave Tuthill, representing reg. office regulatory concerns.

Any additional conditions of approval found to be needed have been added to the supplemental staff analysis sheet which has been prepared and is included in this file.

ADDITIONAL INFORMATION

MEMORANDUM

DATE: January 18, 1996
TO: File No. 63-11756
FROM: Cindy Zimmerman *CJ*
SUBJECT: Amended Application for Permit Review

=====

On 3/18/92, the applicants applied for use of groundwater to irrigate 185.8 acres of which 120 acres (within the NENE, SWNE, & SENE, S07) were covered by licenses 63-02678, 63-03282, and 63-03559. The remaining acreage was irrigated from Wilder Irrigation District water.

Based on information from the applicant a temporary permit for the 1992 irrigation season was issued for use of groundwater to irrigate 80 acres within NENE & NWNE, S07, T04N, R05W. A well was drilled in 7/92.

On 9/13/94, the applicant filed Transfer No. 4444 changing the p/d & p/u of license nos. 63-02678, 63-03282, and 63-03559 to one common well and limiting the combined irrigation to 160 acres within the 223.8 acre land base. And at the same time amended the application to a permissible place of use of 185.8 acres within a 223.8 acre land base (fully overlapping the system to be developed under approved Transfer No. 4444). In the amendment of this application, the irrigated land within NWNE, S07 was reduced to 33.5 acres.

I recommend this amended application be permitted with the following limitations:

- a) This right when combined within Right Nos. 63-02678, 63-03282, and 63-03559 is limited to the irrigation of a total of 193.5 (160 + 33.5) acres within the 223.8 acres described in the place of use.
- b) The maximum rate of flow:
 - = (total acres x rate/acre) - (overlapping right flows)
 - = (193.5 x 0.02) - (1.14 + 1.04 + 0.56)
 - = 3.87 - 2.74
 - = 1.13 cfs.

63-2678 120 A 1.14 cfs = 0.0095 cfs/A (40)

63-3282 52 A 1.04 cfs = 0.02 cfs/A (12)

63-03559 28 A 0.56 cfs = 0.02 cfs/A (28)

0.0295 cfs/A (same 40)

63-3282 adjoins 63-3559, & when combined overlap
63-2678 fully in NENE, S7.

In 1995:

6

T4444 combines:

1.14 cfs 63-02678

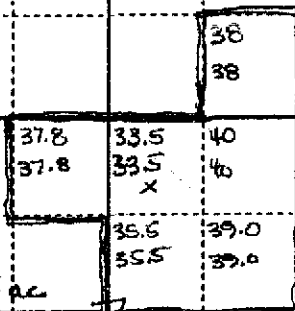

1.04 cfs 63-03282

0.56 cfs 63-03559

when combined
limited to 160 ac
within 223.8 ac.

Permit 63-11756 = same POU as T4444

when combined w/ T4444 WRs
is limited to 160 + 33.5 = 193.5 ac
within 223.8 ac.

Flows 193.5 ac
x 0.02 cfs/ac

3.87 cfs

- 2.74 cfs

1.13 cfs on 63-11756

PHILIP E. BATT
GOVERNOR

KARL J. DREHER
DIRECTOR

May 19, 1995

**Distribution: Applicants Whose Water Right Applications Were Held
Without Action Under the Boise River Basin
Moratorium**

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

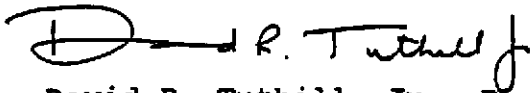

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

May 19, 1995

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.

MEMORANDUM

TO: APPLICATION FOR PERMIT NO. 63-11756

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: PERMIT RECOMMENDATIONS

DATE: November 2, 1994

=====

This application for permit was amended to reflect the same point of diversion and place of use as combined licensed rights under Transfer No. 4444 (63-02678/03282/03559). Transfer review of the system provided a more accurate view of how these rights are being used in a single combined system then previously described.

This application will almost fully complete the groundwater system, providing a full inch per acre to 63.8 acres and an additional portion to bring the remaining 122 acres identified on the application to a full inch per acre. **The permit should be limited to 1.64 cfs which is the maximum rate that could be developed and licensed under this right.**

Total irrigated acres on the farm = 223.8 acres

Total licensed acres = 160.0 acres @ 2.74 cfs OR 0.017 cfs/acre

$223.8 - 160.0 = 63.8 \text{ acres} \times 0.02 \text{ cfs} = 1.27 \text{ cfs}$

$185.8 \text{ acres under this application} - 63.8 \text{ acres} = 122 \text{ acres}$

$0.02 \text{ cfs/acre} - 0.017 \text{ cfs/acre} = 0.003 \text{ cfs/acre}$

$122.0 \text{ acres} \times 0.003 = 0.37 \text{ cfs}$

$1.27 \text{ cfs} + 0.37 \text{ cfs} = 1.64 \text{ total cfs} = \text{maximum rate that could be developed and licensed under an approved Permit No. 63-11756.}$

This leaves 38 acres at a licensed rate of 0.017 cfs/acre which is reasonable for sprinklers systems and use with surface water shares.

NOTICE OF APPLICATION FOR AMENDMENT

Notice is hereby given that application for permit No. 63-11756 in the name of William & Elizabeth Sorrell was filed on 3/18/1992 for the diversion of 3.7 cfs from ground water with the point of diversion in the SENE, Section 7, T04N R05W, to be used for Irrigation within the NE 1/4 and the NENW, Section 7, T04N R05W, 185.8 acres total.

The permit holder now proposes to amend the application by changing the designated point of diversion to the SWNE, Section 7, T04N R05W, and the place of use to 185.8 acres within the SESE, Section 6 and the NE 1/4 and the NENW, Section 7, T04N R05W.

This application represents a temporary moratorium permit for supplemental irrigation.

Any protest against the approval of the proposed amendment must be filed with the Department of Water Resources, 2735 Airport Way, Boise ID 83705, together with a \$25 protest fee on or before October 24, 1994. The protestant must also send a copy of the protest to the applicant.

RE: Transfer and Amendment Applications
License Nos. 63-02678, 63-03282 & 63-03559
Application No. 63-11756

Dear Bill and Elizabeth:

I apologize for the delay in responding to your request. I meant to work on the applications the week after your visit to our office, but was side tracked with drought problems. I appreciate your patience.

I reviewed all the water rights appurtenant to your property in order to prepare the transfer correctly. The three (3) licenses overlap in their place of use and I find a total of 160 total irrigated acres under these rights. The approximate size of your farm appears to be around 225-240 irrigated acres. You should be aware that the conditions of approval will include use of your surface water to the extent it is available in conjunction with your groundwater rights.

I have partially prepared the application for transfer, but you will need to complete the following areas.

On page 1, B.5, please indicate the total number of acres irrigated within each of the highlighted 40 acre tract. The total should be close to the acres you estimated during your office visit or approximately 225 acres. Each right will be individually limited to the specific number of acres that were identified under their respective license and a combined total of 160 acres.

On page 2, B.6.a & b, please answer these questions.

On pages 4, 6, & 8.A.10, please answer the question regarding use of each right.

On page 10, the application requires your notarized signature.

A fee of \$100.00 is required to process a transfer application and will need to be submitted with the completed document.

MICROFILMED

OCT 30 1997

Page 2

I have also partially prepared the application for amendment for Application No. 63-11756. The point of diversion has been changed to reflect the correct legal description for the new well.

I am also recommending that you change the place of use description to reflect the total farm area exactly like the transfer is proposing for the licensed rights. The application will be limited to the total number of acres applied for which appear to be more than sufficient when used with your licensed rights. When this application is being reviewed for license, it will be evaluated as part of the total system covering your farm.

You need only fill in the place of use, sign, and date this application, and return it with the \$50.00 processing fee.

Please review both documents fully for accuracy and make any changes you feel necessary (Please initial all changes). The final responsibility for the action being requested by these applications for change belongs to you, the water right holder.

If you have any questions regarding these forms, please call me directly at 327-7943 and I will be happy to discuss the matter. When I have received the forms and fees, I will check them for completeness and forward them to our Western Region office for advertising and review.

Sincerely,

Pamela Skaggs

DROUGHT RELIEF QUESTIONNAIRE

Department of Water Resources
If you are not interested in having a 1994 temporary permit reinstated, or if you did not drill a well in 1992, disregard this questionnaire. No response is necessary.

Please answer the questions below. Your answers will help the department assess the need for use of the wells to complete the 1994 irrigation season and the extent of water use that will occur if the department again authorizes use of the wells.

1. Temporary permit identification number. 63-11756
(See cover letter)

2. a) Person responding to this questionnaire

William R. Sorrell

b) Relationship to applicant? Same

3. Do you expect to use all of your surface water supplies for the land identified on the attached application prior to the end of the 1994 irrigation season? Yes ✓ No

4. What is the source of supply? (Name of Canal)

Wilder Irrigation

5. What date do you expect this to occur? 8/30/94 estimated

6. List the type of crop, acreage and volume of water in acre feet (AF) needed under the temporary permit to complete the 1994 irrigation season. List only for the lands included in the land list of the attached application for permit.

CROP	ACRES	ACRE FEET
<u>alfalfa</u>	<u>40</u>	<u>0</u>
<u>field corn</u>	<u>35</u>	<u>0</u>

Applicant feels he will have sufficient water from Wilder Irrigation District to complete this crop year.

William R. Sorrell

This questionnaire needs to be completed and returned to the department by August 1, 1994 in order to be considered as a request to reinstate a temporary permit.

RE: Water Right No. M63-11756

Dear Water Right Holder(s):

In 1992, the Department issued you a temporary permit to use groundwater from your well, if you drilled one, to replace depleted storage water supplies. This temporary permit expired on November 15, 1992.

During 1994, since available surface water supplies are again substantially below normal, the department has received a number of requests to re-authorize use of the "1992 drought relief" wells.

The department is willing to consider reinstating the temporary permits for the remainder of 1994 provided you can show that you used water under the 1992 temporary approval and that water will be used only on the lands identified on the temporary permit. Enclosed is a questionnaire which you must complete and return to the department if you want to be considered for reinstatement in 1994.

Also enclosed, for your reference, is a record of your application for permit.

Please be advised that unless the department specifically reinstates the expired permit, you are not authorized to divert and use the water from the well identified on the temporary permit.

If you have any questions, please feel free to contact me at Ph. 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

WILDER ID 83676

RE: Water Right No. M63-11756

Dear Water Right Holder(s):

In 1992, the Department of Water Resources issued the above referenced permit allowing the diversion of water for the 1992 irrigation season only. The permit included a condition:

This permit to appropriate water expires at the end of the 1992 irrigation season. The Director retains jurisdiction to reinstate the permit if drought conditions justify resumption of groundwater use.

It now appears that 1994 early season water supply and precipitation conditions are such that short-term use of the wells that were drilled under this authority could be beneficial prior to the start of water delivery through the canal systems in the Boise Valley. We have been advised that most of the canals will not be able to deliver water for another 10 to 14 days.

Therefore, you are hereby notified that the permit is reinstated for temporary use during the period April 1 through April 15, 1994 only. All other conditions of the permit continue to apply. One requirement was that the well be disconnected from the power system at the end of the approved period of use, which under this reinstatement is April 15, 1994.

The existing moratorium in the Boise Valley area is not changed by this temporary reinstatement of the 1992 drought well permit. This temporary reinstatement does not authorize the construction of a new well or alteration of an existing well.

If you have any questions, please contact this office.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

RE: PERMIT NO. 63-11756

LETTER OF TEMPORARY PERMIT APPROVAL

Dear Permit Holder(s):

Enclosed is a copy of your approved permit. Your proposed use of water qualifies for a narrow exception to the Snake River Basin Moratorium established by the Director on May 15, 1992. The exception allows the use of groundwater during the drought to protect agricultural uses which normally have an adequate supply of water. Please carefully review the conditions of approval.

The Department has approved your permit for the 1992 irrigation season. Diversion of groundwater is not authorized after the 1992 season, and the permit expires. The Director may reinstate the permit in a subsequent year if drought conditions persist. You will be responsible for requesting reinstatement during future irrigation seasons.

When your permit expires, you must make the pump and motor inoperable, and cannot operate the pump without approval from the Department of Water Resources.

Your permit is for supplemental use only to augment your surface water supply. If the surface water you own is sold, transferred, leased or used on any other land without the approval of the Department of Water Resources, you automatically lose your right to divert groundwater. You must obtain the approval of the Department before using your water anywhere other than where it has traditionally been used.

In addition, you must fully utilize your available surface water to the extent possible. The surface water need not be fully consumed or diverted prior to use of groundwater. You cannot, however, simply divert token quantities of surface water and rely primarily on your groundwater diversion. Surface water must be your primary source of water.

MICROFILMED

OUT 30 1997

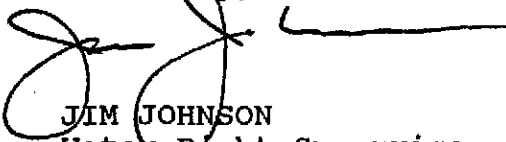

If you want to locate your well closer than 500 feet from an existing well, you must obtain the approval of the Department of Water Resources. We realize that under certain circumstances, it may be impossible to locate the well 500 feet away from another well. You must, however, be cognizant of possible interference resulting from pumping of your well.

If diversion from your well causes interference with other wells with an earlier priority, you may be required to cease pumping or compensate the affected party. Idaho law specifically protects groundwater levels for domestic wells which were in use prior to 1978.

If general water levels in the geographical area of your well decline below reasonable levels, the Department may require you to cease diverting from your well.

You must efficiently apply the water to the land and conserve water to the extent possible. Excessive irrigation, delivery systems with substantial losses, and application methods which cause substantial percolation or evaporation are not acceptable.

Sincerely,

JIM JOHNSON
Water Right Supervisor

WILLIAM SORRELL
ELIZABETH A SORRELL
29249 W HOWE
WILDER ID 82676

Dear Mr. and Mrs. Sorrell:

We are in the process of reviewing your application for permit. The Moratorium Exemption Questionnaire you submitted stated that not all of the land you propose to irrigate has been irrigated by surface water in the past. According to Moratorium stipulations, groundwater applications may be processed if the land in question has an existing normally-full water right from a surface water source. We understand that surface irrigation water has been short in the past years; however, all of the acres you plan to irrigate must have been irrigated with a surface water source sometime during the past ten years.

We can issue you a temporary moratorium permit, but only for those acres previously irrigated with Wilder Irrigation District water. I am enclosing a copy of your application for you to check which acres have been irrigated with surface water.

Thank you for your assistance. Please respond as quickly as possible to prevent any further undue delay in the final processing of your application.

Sincerely,

BRENDA L. MILLER
Technical Records Specialist

Enclosure

MAILED - MAIL

OCT 30 1992

MORATORIUM EXEMPTION QUESTIONNAIRE

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past? ~~yes~~ no

- Do you summer fallow any of your irrigated land? If so, how many acres? no

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the name of canal or water district.

Wilder Irrigation

63-03559

63-03282

63-02678

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season? *We've had this place the last*

two years and it was short water years.
In the good water years the past owners have
grown potatoes on the entire farm.
Our surface irrigation water has not been available the past two
years.

- What crops have you grown in the past ten years?

40 acres potatoes and ~~the~~ balance in hay and grain
in the last two years.

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 8 day of June, 1992.

This Permit is Approved

Date May 27, 1992

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. THE WELL MUST BE LOCATED AT LEAST 500 FEET FROM ANY EXISTING WELL. WELL SPACING CLOSER THAN 500 FEET MUST BE APPROVED BY THE DEPARTMENT OF WATER RESOURCES.
11. IF THE WELL IS DRILLED DEEPER THAN 100 FEET, IT MUST HAVE CASING SEALED THOROUGHLY TO AT LEAST 75 FEET OR A MINIMUM OF 5 FEET INTO THE FIRST CLAY STRATA, WHICHEVER IS GREATER.
