Re: Permit No. G-24170

Mr. Shirley R. Barrett
Malta
Idaho

Dear Mr. Barrett:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-24170 shows the well is capable of conveying 101 miners' inches (2.02 c f.s.) of water for irrigation of 145 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee eight dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of June 1, 1953, to the use of 2.02 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32, for irrigation of 145 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29; W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 32, Township 14 South, Range 27 East, B.M.

RE: Permit No. G-24170

Shirley R. Barrett
Malta, Idaho

Dear Miss Barrett:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24170, to be made on the 26th day of May at 4:00 P.M. before J. Henry Thompson, Notary Public.

As of this date we have mailed the Notice to the Burley Herald-Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, at the time, on the date, at the place and before the Notary as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Mr. Barrett:

Re-inspection of the completion of works and beneficial use of water under the terms of Permit No. G-24170 found that the well is capable of conveying 161 miners' inches of water of which 145 inches (2.9 c.f.s.) can be licensed under this permit--allowing one inch to the acre.

We enclose Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-24170 confirming the right with priority of June 1, 1953, to the use of 2.9 second feet of subterranean water, with point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32, for irrigation of 145 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 32, Township 14 South, Range 27 East, B.M.

Enclosed also is departmental receipt #G-3600 for \$13.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and eight dollars license fee.

Sir:

Enclosed please find money order for \$3.00

Permit No. G-24170

I seriously question the accuracy of the water
measurement taken by the field engineers.
The reason I do not think it was accurate is
that the weir was placed much too close to the
well to permit the water to be slowed enough
to accurately measure it. The flow in the
ditch should have moved a foot per second
and it was moving several times that fast.

I would appreciate it if this well could
be rechecked. If it did not show a substantial
difference from the engineers' report, I will gladly
pay the costs of the measurement & time involved.
I believe under the circumstances that the measur-
ing device that fastens directly on the discharge
pipe would be the most accurate way to measure

the water.

However, if you feel that another inspection would not be possible or practical at this time, please issue certificates as planned, and perhaps the well could be rechecked later at your convenience.

Sincerely

Dear Mr. Barrett:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-24170 shows the well is capable of conveying 101 miners' inches (2.02 c f.s.) of water for irrigation of 145 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee eight dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of June 1, 1953, to the use of 2.02 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32, for irrigation of 145 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29; W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 32, Township 14 South, Range 27 East, B.M.

Dear Mr^s. Barrett

An inspection and a report on same is required by law in connection with any permit for use of water being brought to license in the State of Idaho before same can be licensed.

An inspecting Engineer from this Department will be in your County the week of July 9, 1958 to make inspections.

He will try to contact you by telephone or otherwise at that time to make a definite appointment with you for the inspection.

Please prepared to accompany him or have someone represent you on the inspection.

Dear Miss Barrett:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24170, to be made on the 26th day of May at 4:00 P.M. before J. Henry Thompson, Notary Public.

As of this date we have mailed the Notice to the Burley Herald-Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, at the time, on the date, at the place and before the Notary as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

RE: Permit No. G-24170

Date April 1, 1958

Shirley R. Barrett
Malta, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24170 are due not later than June 6, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made on no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G-24170

Mr. Shirley R. Barrett

Dear Mr. Barrett:

In answer to your letter of January 15, 1957, with which you enclosed your Permit No. G-24170 for filing on subterranean water from a well to be drilled in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32, Township 14 South, Range 27 East B.M., we return it to you and call to your attention the terms stated on the back under the Approval of State Reclamation Engineer. It states: work to begin August 6, 1953; one-fifth of said work to be completed on or before December 6, 1955. The State Engineer has no statutory right to change or to extend these dates. The department does not police or enforce these provisions but only the date for completion of works and water put to beneficial use which in this permit is June 6, 1958.

Relative to a change in location of the well; we enclose an Amendment to Permit which will, when properly filled out and returned to the department, effect a change in the point of diversion as described in the original permit. Please note that the point of diversion as described in the permit must be listed and on the next line the point where you wish to drill can be shown and then state the reason for such change and sign it and return to the department. There is no charge for an amendment, therefore, we are returning your money order for \$1.00.

Upon receipt of the amendment we will record it in conjunction with your permit and return it to you to be attached to the original permit.

Very truly yours,

Sir:

I have in the past been issued two well permits, one dated June 6, 1953 and the other November 15, 1955.

However, in both cases I was unable to obtain finance to do this work. This year I am getting a loan through F.H.A. for the purpose of drilling a well. In checking over my permits, Mr. Young, the F.H.A. appraiser, finds that besides being over the time limit specified on the permit, that there is also an error in the location of the well. He suggests that I return the first permit (which is enclosed) and have it brought up to date as to the beginning and completion dates. If this can be done, please do so.

I am enclosing a money order for \$1.00 to cover charges.

Sincerely,

Shirley R. Barrett

Dear Mr. Barrett:

Our records show that on June 6, 1953, Permit No. G-24170 was issued and sent you.

This Permit called for commencement of work on or before August 7, 1953; 1/5 of the work to be done on or before December 6, 1955; and the works to be completed on or before June 6, 1958.

If we understand your letter correctly nothing has been done under this Permit which, of course, would render it subject to cancellation.

We therefore, enclose a form of Application which you may use to renew your filing together with a pamphlet giving regulations and instructions in regard to filing same.
