C. DIVERSION AND DELIVERY SYSTEM

Discrepancies between the written portion of the exam and the exam map required contacting the examiner and the Boundary County Assessor's office.

Per a telephone conversation with the examiner, he stated the home was right along Cow Creek, which would place it in the SENW $\frac{1}{4}$. A USGS copy of the entire section confirms his statement. This information coincides with the permit.

The place of use location was also verified with the Boundary County Assessor's office as being in the SENW of Section 6, Township 61N and Range 02E.

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Re: Water Appropriation Application No. 98-7703

Dear Mr. Nickolauson:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Dear Mr. Nickolauson:

During a review of the above-referenced water right which you filed with our office on September 22, 1992, we discovered that you did not sign the application.

We are, therefore, returning the original application for permit for your signature. We are not delaying the processing of this application, so please sign the original and return it to our office as soon as possible in the enclosed stamped, self-addressed envelope.

Thank you for your cooperation.

Sincerely,

PATRICIA M. STYPA
