ORDER

WHEREAS, the Department of Water Resources (department) has issued the above captioned water right permit with a condition of approval requiring the permit holder to install a flow measurement port to facilitate the measurement and determination of the rate of diversion by the department; and

WHEREAS, the department has determined that the rate of diversion for certain surface water uses can be estimated by the department without the use of a measurement port; and

IT IS THEREFORE, HEREBY ORDERED that the condition of approval requiring the installation of a flow measurement port for the above mentioned permit be **WAIVED**. The department retains jurisdiction to require the condition be reinstated in the future upon a finding of need by the department.

RE: Attached field exam for 98-07694

Date: June 29, 2001

.....

As we discussed on the telephone, earlier this week, I am returning the field exam for Permit 98-07694 to you for a re-measurement. According to the field examiner's handbook we should never trust a bucket measurement when discharge is greater than 5 gallons in less than 5 seconds. I have attached the 2 pages from the field examiner's handbook that discusses this.

Also, Wayne had recommended a couple of domestic uses under this right and we cannot recognize them under this permit. They did not file for domestic use when the original application was submitted and we can't add it now or it would be an expansion of the permit.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 98-07694

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Enclosed is an Order waiving the flow measurement port condition on your permit. Additionally, please note that your water right permit authorizes a diversion of water for irrigation use only. You are not authorized to divert water domestic use for five (5) homes as you have stated on the proof form.

Be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, please contact the **NORTHERN** Regional Office in Coeur d'Alene, at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH

RE: Permit No. 98-07694

Dear Permit Holder:

I have returned a copy of the Proof of Beneficial Use form submitted in connection with the above referenced water right. You state on the proof form that you are diverting 1.90 cfs for irrigation, domestic and stockwater purposes. Before the department can process the proof, it must be accompanied by the appropriate license examination fee. You submitted \$50.00, however, the license examination fee for a rate of 1.90 cfs is \$125.00. I have enclosed a copy of the license examination fee schedule for your reference.

Please return the copy of the proof along with the additional \$75.00.00 license examination fee within thirty (30) days of receipt of this letter. Please address your correspondence to my attention.

If you have any questions or if I can be of any assistance, please feel free to contact me at (208)327-7900.

PROOF DUE NOTICE

RE: PERMIT NO. 98-07694

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Sincerely,

BRENDA MILLER

Re: Appropriation Application

Dear Applicant:

The Idaho Department of Water Resources has received your Application For Permit To Appropriate The Public Waters Of The State Of Idaho. However I regret to inform you that the application is not acceptable without a \$65.00 filing fee, so I am returning it to allow you to check the items #4 and #5, which I have taken the liberty changing.

The Application must be returned to this office with the \$65.00 filing fee and any other information you deem appropriate within 30 days of the above date. Failure to communicate with this office within that time may result in the voiding of your application.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

Re: Appropriation Application

Dear Applicant:

I have enclosed the Appropriation Application and Instructions for filing as we discussed.

Since you are planning to store water you must complete item #4 as indicated in the following example:

Water will be used for the following purposes:

Amt 0.20 cfs for Irrigation purposes from 4/1 to 11/1 (both dates inclusive)
Amt 5.0 AF for Storage for Irrigation from 1/1 to 12/31 (both dates inclusive)
Amt 5.0 AF for Irrigation from storage from 4/1 to 11/1 (both dates inclusive)

The preceding example indicates that:

The water will be diverted at a rate of 0.20 cfs for irrigation purposes from April until the first of November of each year.

5.0 acre feet of the water will be stored from January through December of each year for irrigation purposes.

5.0 acre feet of the water may be removed from storage from April until November of each year for irrigation purposes.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
