Dear Mr. Keen:

Enclosed is the Application for Amendment with the filing fee. It is difficult to tell from the general legal descriptions which users are allowed irrigation useage when there are more than one in a quarter section. However, from our telephone discussion and from what I could determine from the maps the amendments should be satisfactory.

If there are questions regarding the descriptions, please contact me at (208) 267-7740, or Larry Hosterman at 267-9557.

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return it with the \$50 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

MEMORANDUM

TO: File 98-07693

FROM: Sharla

DATE: December 4, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 98-07693 are based on the following:

C. DIVERSION AND DELIVERY SYSTEM

1. Point(s) of Diversion:

NENW, S22, T62N, R3E

2. Place(s) of Use:

T62N, R3E, S21 - NWNE (.3 acres), SENE (.3 acres)
NENW (.5 acres), NWNW (.3 acres)
SENE (.3 acres), NESW (.3 acres)
SESE (.3 acres)
S22 - NENE (.3 acres), NENW (.3 acres)
S27 - SWNW (.8 acres), SENW (.3 acres)
NESW (.5 acres)
S28 - NENE (.3 acres), SENE (.3 acres)
TOTAL 5.1 acres

H. RECOMMENDATIONS

Irrigation	3/15 - 11/15	0.08 cfs	15.3 afa
Domestic	1/1 - 12/31	0.08 cfs	10.8 afa
	TOTALS	0.08 cfs	26.1 afa

The examiner inadvertently left the ¼¼ description off the front page of the exam.

The application for permit was filed for irrigation of ¼ acre lots. Data entry standards require that acres be rounded to one place past the decimal. Thus 0.25 becomes .3 acres. Two such lots in a ¼¼ is 0.5 acres, not 0.6 acres; and 3 such lots are 0.8 acres (.25 X 3 = .75 rounded up).

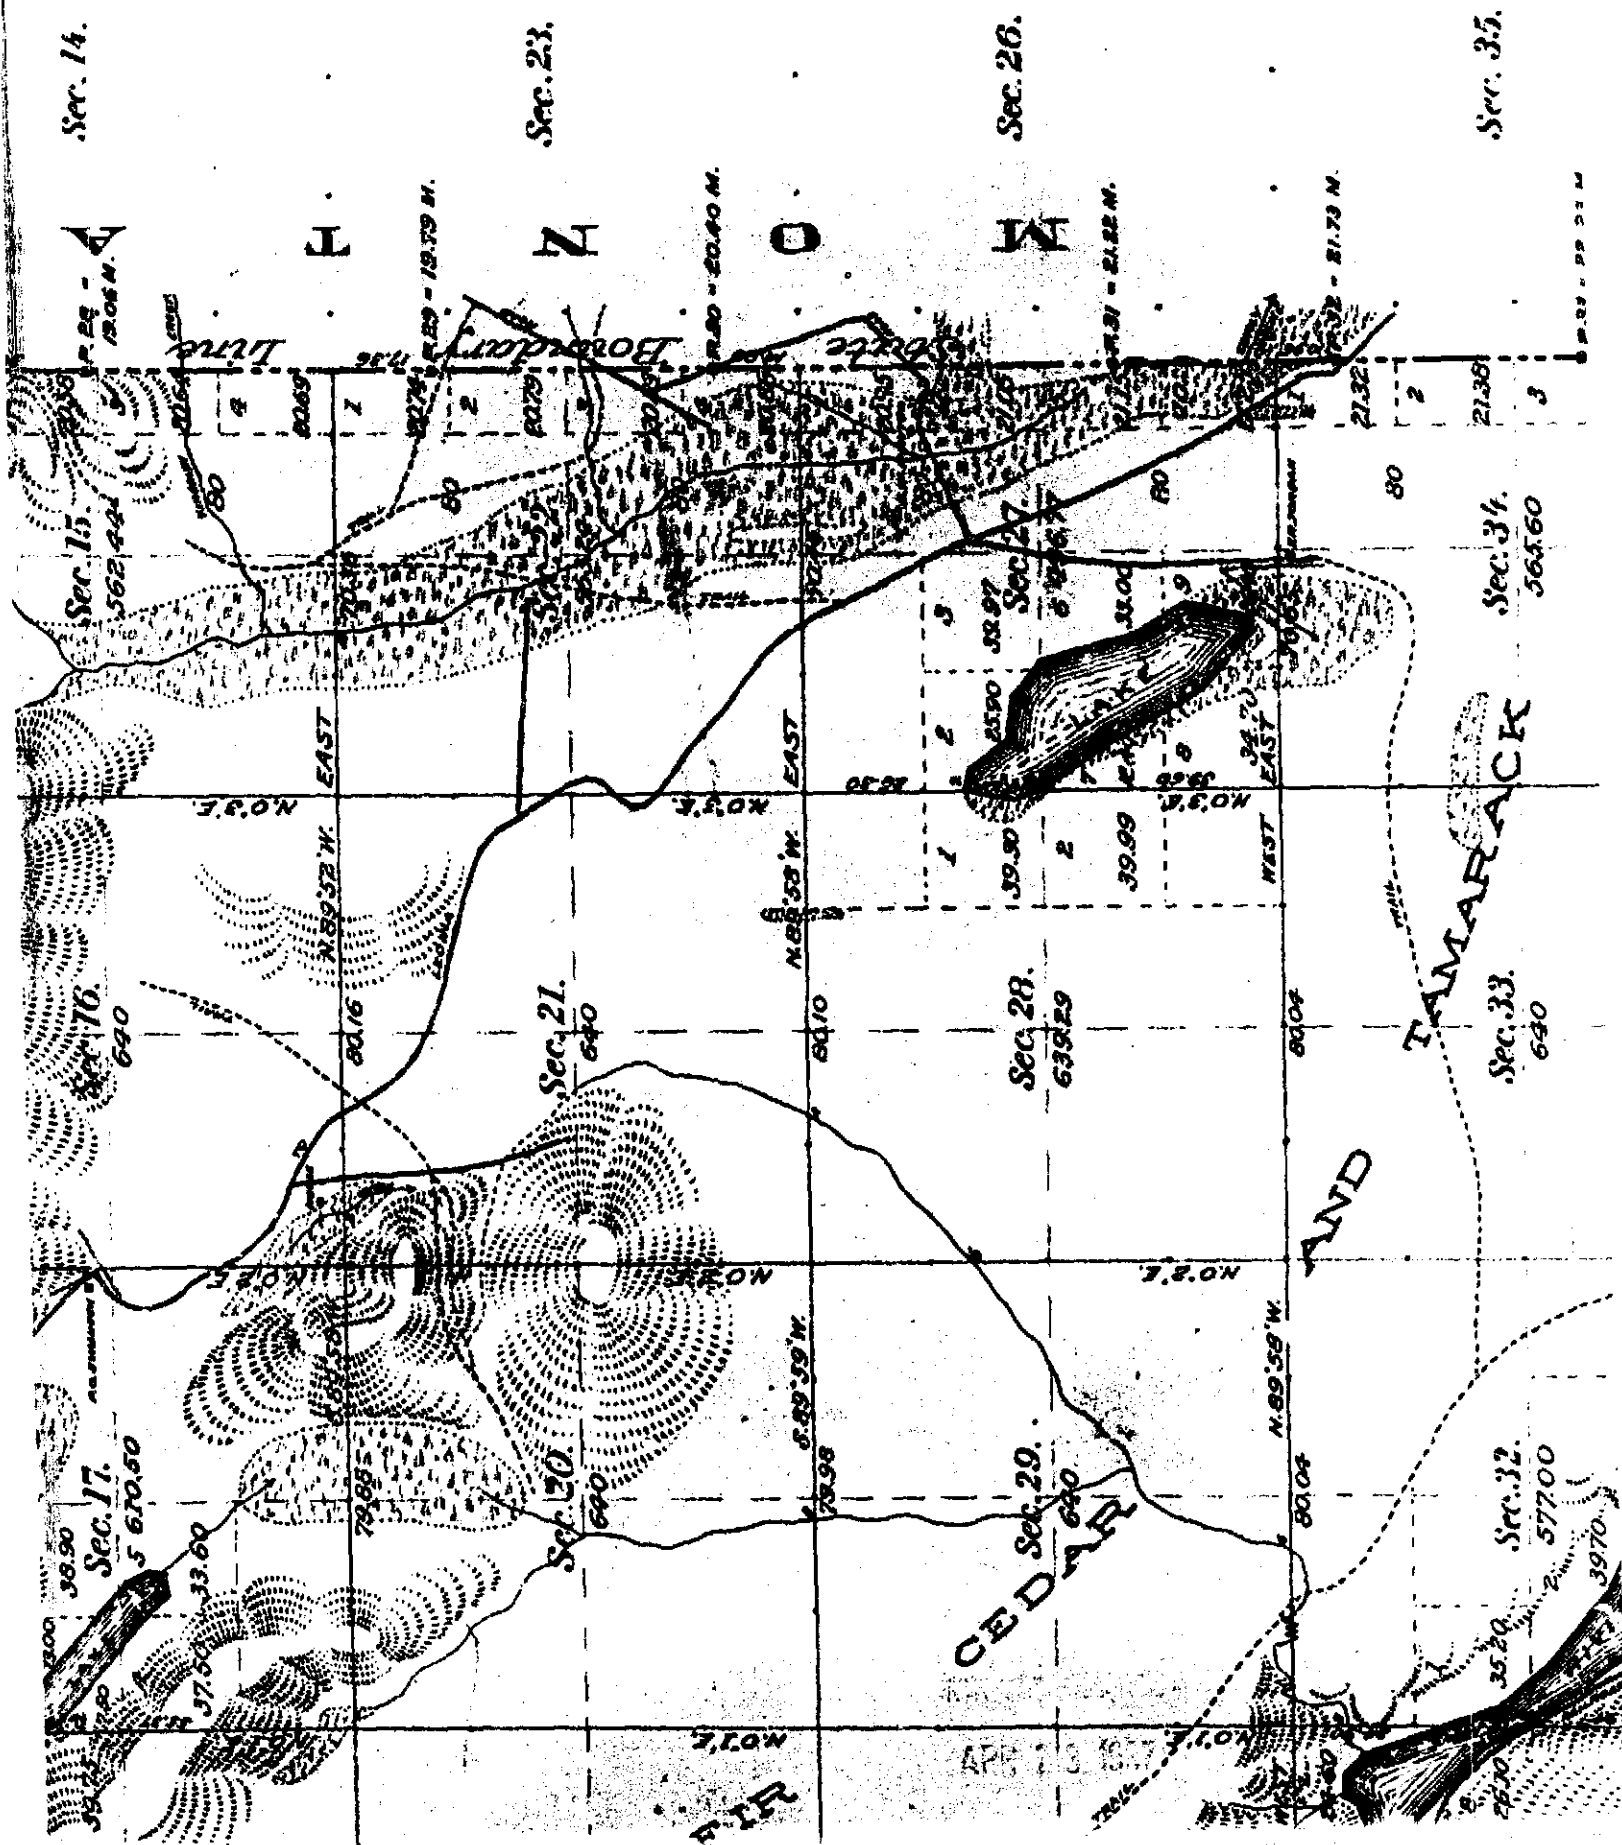

The irrigation of lawns/gardens is accounted for under the irrigation component. The volume for domestic use, therefore, is calculated on in-house use only.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 98-07693

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 98-07693

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

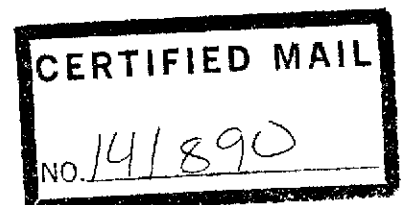

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 98-07693

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to March 1, 1995. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 98-07693

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

Sincerely,

PAMELA SKAGGS

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved Date March 6, 1992

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

Re: Appropriation Application

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To appropriate the Public Waters Of The State Of Idaho, as well as the required appropriation filing fee, for which your Receipt is enclosed. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent

RE: Drilling permit and water right application

Dear Mr. Hudlow:

We have received your applications for a drilling permit, and water right. We also received a check from the association for \$35 which is insufficient to cover the fees necessary for these applications. According to our phone conversation, I am therefore returning your check to allow you to cut another one in the proper amount.

As discussed, the fee required for the drilling permit is \$200.00, and the fee for the water right application is \$30.00. Filing of both applications would require the submittal of \$230.00.

If you have any questions please contact me in the Northern Regional office (phone 765-4639).

Sincerely

David D. LePard
Engineering Geologist
