RE: Water Rights

Dear Mr. Pluid:

This letter is in response to your letter dated June, 7 1993, regarding water rights for the City of Moyie Springs.

Our records indicate that the City of Moyie Springs have Water Right License Number 98-07206 for a diversion of 0.67 CFS from the Moyie River. And a Water Right Permit Number 98-07679 for groundwater for 1.34 CFS.

Water Right Permit Number 98-07679 will have to be amended to include the third point of diversion for your new well. However, we suggest that you amend this permit as part of the licensing process and not at this time. The reason for waiting is that if we find additional items that need to be amended when we conduct the beneficial use examination, we could process them at the same time, for one \$20.00 amendment fee. No further action will be required until you file the proof of beneficial use for this permit, which is due Feb. 1, 1994. After we complete our field examination, we will contact you for the amendment(s). A Well Drilling Permit must be obtained prior to construction of the new well and a licensed well driller must be used to construct the well. Please list 98-07679 as the water right permit, when you apply for the Well Drilling Permit.

If your diversion from the Moyie River has ceased, please write our Department a letter explaining that Water Right Number 98-07206 is relinquished.

If I can be of further assistance, please contact me at this office.

Sincerely,

ALLEN BEARDSLEE

Dear Mr. Beardslee;

In October, 1990, the City of Moyie Springs filled out the papers for the Permit to Appropriate Water, and the Well Drilling Permit. In November, 1990, Duane Branson drilled our first well, which was not put into operation at that time.

In January, 1991, the City of Moyie Springs received the Permit to Appropriate Water at the rate of 1.34 CFS.

In the summer of 1992, PGT, having to make several river crossings for the expansion of the natural gas pipeline, damaged the Moyie River to the extent that the City of Moyie Springs could no longer use the Moyie River for its water supply.

Bechtel Corp., because of the damage done to the Moyie River, agreed to have the first well that had been drilled in November, 1990, finished, and also have a second well drilled. The second well was drilled in late summer, 1992, by Bob Pitts & Sons, Inc. Both wells together, are producing 250 gpm.

The City of Moyie Springs would now like to drill a third well. All 3 wells will produce less than the maximum diversion rate of 1.34 CFS.

If the City of Moyie Springs needs anything from you besides a well drilling permit, in order to drill the third well, please let us know.

Thank you.

Sincerely,

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to December 1, 1994.

Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Permit No. 98-07679

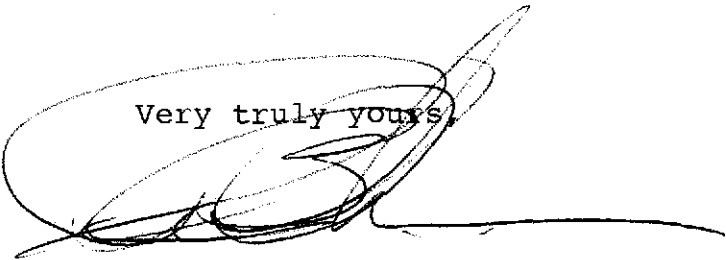

Gentlemen:

Enclosed please find the "Request for Extension of Time." While some basic excavation work and casing installation has been done, negotiations with the Farmer's Home Administration have delayed further work progress.

If there is any difficulty with granting this extension, please call me at once.

Thank you.

Very truly yours,

Peter B. Wilson

PROOF DUE NOTICE

RE: PERMIT NO. 98-07679

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 98-07679

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
