us since our pond uses creek springs
it is considered surface water source so
we need to pay a \$50.00 license exam
fee. We enclose our check for \$50.00
& are hoping this will be satisfactory.
Thank You.

Re: Permit No. 98-07668

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit. In your letter to the Department, you indicate that your pond uses a groundwater source. On the proof of beneficial use you list the source of water as Dobson Creek and Springs.

Creeks, streams, springs, lakes, rivers etc are considered surface water sources. Wells are the only groundwater sources. Since you use a creek and springs for your source (surface water), a \$50 license exam fee applies to your permit.

In order to comply with all of the necessary dates, you need to return the proof of beneficial use and \$50 license exam fee by September 1, 1992.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Dept. of Water Resources,
Dear Folks,

I've sent in a proof of beneficial use over a year ago. Maybe it wasn't received or something not done right, we are sorry.

Our pond uses a ground water source & has a total rate of diversion of 0.04 cfs or less. According to the license examination fee schedule we would not be required to send a fee or any thing else to fulfill besides sending in this proof of beneficial use. Please let us know if this is not enough.

Thank you. Sincerely

PROOF DUE NOTICE

RE: PERMIT NO. 98-07668

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

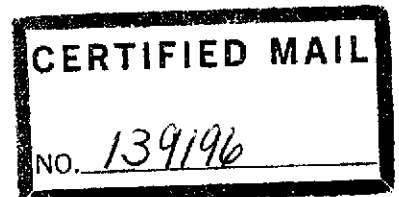

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

Re: Water Appropriation Application # 98-07668

Dear Applicant:

The Idaho Department of Water Resources acknowledges receipt of your Application For Permit To appropriate the Public Waters Of The State Of Idaho and have assigned to it the above referenced number. To assist us in providing you with prompt, accurate service, please refer to this number in all future matters concerning this application.

Your application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If the application is not protested it will be forwarded to Boise, where departmental staff will conduct a more in depth review of the application, to determine if there is a need for further information that will facilitate the Directors decision on the application. You will be notified by mail of this decision.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
