has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 11, 1988; and has submitted Proof of Beneficial Use on June 13, 1990. An examination indicates that the works have a diversion capacity of .020 cfs of water from:

UNNAMED STREAM

tributary to SINKS

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.02 CFS	0.6 AF

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for irrigation of 1/4 acre of garden.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 29TH day of DECEMBER 1993.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 98-7646, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 1991.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 8th day of December, 1988.

RE: WATER RIGHT NO. 98-07646

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion and the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 14 days.

If you do not concur with this information, please contact me as soon as possible.

Sincerely,

RE: PERMIT NO. 98-07646

Dear Permit Holder:

I recently conducted an exam on your property. After talking with my boss, we decided to list your garden under domestic use - which is not a problem. However, I did find your place of use and point of diversion different than what was stated on the permit. This will require an amendment to be filed. This will be explained to you by the state office in more detail later on. If you have any questions, call the number above and talk to Allen Beardsley the water right specialist. Thank you for your cooperation.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 98-07646

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

RE: Permit to Appropriate Water No. 98-07646

Dear Mr. and Mrs. Bergess:

Thank you for your letter dated December 13, 1989.

Idaho law requires that you commence construction of your water development within one year of approval of your permit. The Department has enforced this provision when a water development is contested. In other cases, however, penalties for failure to commence construction have not been strictly enforced.

The important date which you must remember is January 1, 1991. Your permit requires that proof of construction of works and application of water to beneficial use must be submitted on or before that date. You may seek an extension of time to complete the development. I suggest, however, that you make every effort to complete construction and use the water prior to January 1, 1991.

The Department will send you a notice that proof is due on approximately November 1, 1990. The notice will contain a proof of beneficial use form which you must complete and return to the Department.

Sincerely,

GARY SPACKMAN, Manager

Date: 18, 1989

Subject: 98-07646

Hi Gary,

The attached letter from Mr. and Mrs. Berges, is a request for an extension of time in which to commence construction of the above reference permit. This question has arisen on several occasions and I am not certain how to answer, since I can find no method of extending the commencement time. Please advise.

Dear Mr. King,

This letter is written to request an extension
of our permit # 98-07646 for ^{our} water rights application.
We were unable to commence construction of the diversion
of water ~~to~~ our property.

We would appreciate the extension time be allowed
to the maximum time as possible.

Thank You,
Harold & Mary Berges

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 98-07646

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Appropriation Application

Dear Sir:

This office is in receipt of your application to appropriate water from a Spring tributary to Sinks, however the application can not be processed since the map shows the point of diversion within the SE SW SW, Section 13 and the point of diversion is listed in item #3 as being within the SESW. It appears that the map is correct and that when item #3 was written the legal was transposed. With your permission I will change the legal description of the point of diversion in item #3 to agree with the map.

If this is agreeable with you or if you have any questions please contact me at this department prior to Aug. 15, 1988. If we have not received word from you by that time it will be necessary to void your application.

Sincerely,

Tom D. King
Sr. Water Resource Agent

Dear Mr King,

Permission is granted to correct the error of the legal description as stated above.

Sincerely,
Harold Burgess
