CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

Dear Mr. and Mrs. Kelson:

I have received your letter concerning the license proposed to be issued on the above referenced right.

The draft license we sent to you was a reflection of the development verified by our examiner (Theresa Bright) in June of 1990. I have enclosed a copy of the original application for permit you filed in 1986. In it you identified that the well would be used for domestic purposes (1 home), stockwater purposes (100 head) and irrigation of 2 acres.

When you filed proof of beneficial use in February of 1990, you opted not to pay an examination fee. This meant that the maximum amount of water for which we can issue a license is 0.04 cfs (18 gpm). The examiner found two sprinklers discharging a total of 8.8 gpm (0.02 cfs) and this amount when combined with the use for in-house and stockwatering purposes will probably not exceed the 0.04 cfs.

Stockwater for your maximum of 75 head can easily be recommended. The irrigation and domestic components, however, will remain limited as previously identified. If you wish to discuss this matter further, feel free to give me a call.

Sincerely,

Sharla Curtis

Exp. of water resources,
Dear Sir

In Regards to the water
Right No. 98-07624.

I never heard of such a
ridiculous thing for a farm
in Vance Hay and Laine the
Ranch has 157 acres.

Some time we have up to
75 head of cattle on feed
we have a boy that is
fixing a tractor to live in
he will have ~~to~~ ~~water~~
water.

SEP 23 1992
We have a Brigate only a
garding a few fruit trees,
This well and pump cost

quite a sum of money
we are going to use it for
our own needs. Thanks
Erney Nelson

Yours regards to Walter & Regis
Walter told me - 98-07-29.

The well puts out 30 gallons of water
per minute, and they also have to
be saving on water.

It only to tell you have never
lived on a ranch or farm.

It is necessary to have live stock,
to feed the hay to, that is not always
obtainable, & when it is abundant
we can't sell it all.

Your proposal is hardly acceptable.

RE: PERMIT 98-7624 - PROOF OF BENEFICIAL USE

Dear Mr. Kelson:

The department has reviewed the proof of beneficial use affidavit which you submitted on February 14, 1990 in connection with your permit.

If your intent is submit the proof for 0.08 cfs (36 gallons per minute) which is the maximum rate of water authorized by your permit, you need to submit a license examination fee to the departm in the amount of \$50. If your system will not produce more than 0.04 cfs (18 gallons per minute), however, a fee is not required. The department will assume you are content with a water right of 0.04 cfs unless you submit the \$50 license examination fee to the department within thirty (30) days.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE
RE: PERMIT NO. 98-07624

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
