RE: Returned Field Exam

=====

The field exam for the above referenced permit is being returned to the region for the following reasons:

- 1) The Flow Measurement section of the exam lists "8/10" @110 psi = 195 gpm = 0.43 cfs". There is no other information. What is the basis for these calculations? **SEE FORMULA FOR NOZZLE Q.**
- 2) The well inspection form lists the well location in the NENW $\frac{1}{4}$ of Section 23. According to the map and the original permit, the well is in the NWNE $\frac{1}{4}$ (as is listed in the Place of Use section of the exam). **WELL LOG & WELL INSPECTION REPORT WERE INCORRECT.**
- 3) The Well Log is for a 6" domestic well. This should be an irrigation well. The domestic use has been removed according to the exam. **DOMESTIC USE IS BEING SERVED FROM ANOTHER WELL.**
- 4) The permit included stockwater for 100 head. There is no reference to keep or delete stockwater in the exam. **STOCKWATER IS FOR 50 HEAD.**

The file is being returned to the vault.

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. Re: 95-7616

Dear Mr. Emacio:

During a review of your above-referenced water right application, it was discovered that you have applied for 2.0 cfs of water for irrigation purposes from April 1 to December 1.

Please be advised that the normal time period allowed for irrigation is from March 15 to November 15.

If you do not contact us within fifteen days indicating the need for the irrigation water until December 1, we will take steps to reduce the time period to November 15.

If you have any questions, please contact this office.

Sincerely,

ROBERT G. HAYNES, P.E.
