

MEMORANDUM

Date: April 2, 2007
To: Transfer 73458 File
From: Kelly K Christensen
Re: Evaluation of Sufficiency of Information Submitted

The transfer proposes changing the point of diversion for a 36 acre supplemental ground water right owned by the applicant to a location on his property. The new well location is approximately 500 ft east northeast of the existing well. The well will be located east of Hwy 75 and approximately 4.5 miles south of the center of Bellevue. This right and 37-21806 (surface water right) are recommended in the SRBA for the irrigation of 36 acres. The well is a supplemental right to a surface water right that is not being changed through this transfer.

- **Authority to File:**
The applicant is listed as the current owner of the rights being transferred according to IDWR records.
- **Water Right Validity:**
The rights involved with the transfer have been recommended in the SRBA as of 2-2-2007.
- **Injury to Other Water Rights:**
None anticipated. There is no change to the place of use for either right associated with the place of use.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
Application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
