RECOMMENDATION OF WATERMASTER

Application No: 72393
Water Right No: 36-16381 et al
Applicant Name: G & G Dairy

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application
- b) ☒ I do not oppose approval of this application if it is conditioned as follows:

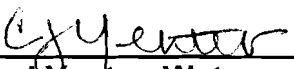

As drafted OK.
No additional pods to be developed.

- c) ☐ I oppose approval of this application(s) for the following reasons:
- d) ☒ Additional comment:

This is a small dairy which thus far has escaped measurement in WD130. A device order was initially sent last year, and the transfer conditions will allow me to "upgrade" the device requirement. Besides right no. 36-8215 which is represented on the transfer, there is also permit 36-8735 appurtenant to the facility, in the amount of 0.13 cfs and 26.5 AF (volume associated because permit was amended from irrigation use). This right is noted on the transfer but not mentioned in staff review. The permit should allow additional diversions in excess of the approved transfer. I don't know whether or not it needs to be acknowledged in transfer conditions...?
