APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Double Dollar Holdings LLC A#: Nathan Weeks Phone 208 746-9801
Mailing address 1005 Warner Ave Lewiston ID 83501
2. Source of water supply groundwater which is a tributary of _____
3. Location of point of diversion is Township 36N Range 5W Sec. 32, in the NW ¼, NW ¼, _____ ¼, Govt. Lot _____, B.M., Nez Perce County;
additional points of diversion if any: _____

4. Water will be used for the following purposes:

- Amount 20.04 for Irrigation purposes from 3/15 to 11/15 (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 20.04 and/or (b) 2.47
cubic feet per second acre feet per annum

6. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source Per. T. Nathan with well with pump

- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet

- c. Proposed well diameter is 8 inches; proposed depth of well is 150 feet

- d. Is ground water with a temperature of greater than 85°F being sought? _____

- e. If well is already drilled, when? _____; Drilling firm _____;

Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year)

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in kW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; show name of municipality. _____
- d. Domestic; show number of households. _____
- e. Other; describe fully. _____

3. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
36N	5W	32						X											1.02
								1.02											

Per T.C. with Nathan
1.02

Total number of acres to be irrigated ~~1.5~~ 1.02 Per T.C. with Nathan

10. Describe any other water rights used for the same purposes as described above. _____

11. a. Who owns the property at the point of diversion? Double Dollar Holding LLC

b. Who owns the land to be irrigated or place of use? Same

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: 1.02 acres - Per. Nathan Weeks

12. Remarks: Proposed use for irrigation of 1.02 acres of landscaping at an automobile dealership. Landscape contractor advise sprinkler system will need 1900 gallons per minute. Diversion will be from a well that has not been drilled pending application of this water right.

Per. T.C. with Nathan

13. MAP OF PROPOSED PROJECT REQUIRED - Attach an 8 1/2"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

RE: Permit No. 85-15684

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name being the most prominent.

Shelley W. Keen, Acting Section Manager
Water Right Permits Section

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on March 16, 2007 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Lewiston Morning Tribune on October 19 and 26, 2006. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Keith E. Franklin
Senior Water Resource Agent

Subject: Application For Permit #85-15684

Shelley,

Since the location of this application is in Lewiston, ID, I don't believe we have to advertise it with a Wild & Scenic comment. According to Work-Flow, there isn't an administrative area, like Wild & Scenic, in Lewiston. Please verify. Thanks. Keith.

Franklin, Keith

Subject: Application For Permit #85-15684

Shelley,

The Northern Region is trying to finalize an application for permit that's in the Salmon-Clearwater River Basin. The applicant has complied with the information gathering for the new procedure for processing a sensitive basin application.

Attached is my analysis memo and recommendation along with supporting documents for your review, within the guidelines of parallel processing. If the information is satisfactory let me know, for the next step is to advertise the application.

Thanks. Keith.

To: Water Right Application # 85-15684

From: Keith E. Franklin

Date: October 3, 2006

Re: Application for a Permit to Appropriate Water within the Salmon and Clearwater River Basins.

Re: Regional Analysis and Recommendation in accordance with Water Appropriation Rules (IDAPA 37.03.08.040.05).

Water Supply Information.

The Idaho Department of Fish & Game as well as the Department of Environmental Quality have no adverse comments towards the applicant withdrawing up to an instantaneous ground water diversion of 0.04 cfs for approximately 19 gallons per minute for 5 hours per day, on scheduled irrigation days, for a total of 140 days of irrigation. The withdrawal would be for 5,760 gallons per irrigation day for a total of 806,400 gallons or 2.47 acre-feet per year. The applicant realizes the instantaneous diversion is slightly more than the normal allocation of 0.03 cfs per acre, however since this will be for landscape irrigation around a proposed business, the applicant doesn't want the irrigation to disrupt the flow of business. The area of land proposed to be irrigated is 1.02 acres.

Good Faith, Delay, or Speculative Information.

The applicant plans to divert water for his own use on property that he owns and there are no known issues with any other party.

Financial Resources Information.

The applicant estimates the cost will be about \$8,000 to drill a well and install a pump. The money for this is planned to be included in the construction loan being sought to finance the construction of the multi-million dollar new automobile dealership facility.

Local Public Interest.

The Idaho Department of Fish & Game and the Department of Environmental Quality have been ask to comment, by the applicant. The agencies are not apposed to the applicant's proposal. The Department of Fish & Game and the applicant agreed upon a water conservation measure, that the applicant would withdraw only 2.47 acre feet of water per year. The Department of Environmental Quality listed two compliance requirements that have to do with Well Construction Standards, IDAPA 37, Title 03, Chapter 09 and all work would have to be completed following the guidelines, best management practices, rules and regulations found in "Idaho Well-Driller's Regulatory Compliance Guidebook". The Department of Water Resources should point out these

requirements in a cover letter to the applicant and suggest he/she contact the agency on how to best comply.

Injury to Other Water Rights.

There isn't any foreseen potential to impact area water right holders or impact the Clearwater River below the point of diversion.

Recommendation.

Northern Region recommends proceeding with the processing of this water right application.

Dear Mr. Weeks:

RE: Water Right Application, Letter of August 31, 2006

Thank you for implementing our recommendations regarding your proposal to drill a well to withdraw 0.07 cfs in the mainstem Clearwater River drainage for irrigation of 1.5 acres of landscape plantings.

In our 7/24/06 comment letter regarding your proposed development, we asked that you recalculate your irrigation water need based on the actual area to be irrigated, rather than the total area of the property. Our goal is to encourage conservation of water at every opportunity, however small the amount of water saved relative to water available in a watershed. Your letter of August 31, 2006 conveys that you share our goal of conserving water resources in the Clearwater River drainage. You have recalculated the amount of water needed and state that you will reduce your request to IDWR to a withdrawal of 2.47 AFA, based on actual water need.

Again, we appreciate your positive response to our suggestions. Just as every withdrawal of water from either groundwater or surface water has a cumulative impact, so too does every effort to conserve. We endorse your modified request based on actual water need. We will send a copy of this letter to IDWR to inform them of our position.

Thanks again for the opportunity to work with you on your application.

Sincerely,

Cal Groen
Clearwater Regional Supervisor

RE: Application for Permit to Appropriate the Public Waters of The State of Idaho

I am in receipt of your letter of June 30, 2006. You have requested additional information under Water Appropriation Rule 40.05. The items highlighted in those rules in your letter are specifically addressed.

c. ii. Included is a map from the assessors office showing the layout of the property and where the well is planned to be located. This can be used in conjunction with the map sent in with the original application. The only other well that we know about is across the street and is domestic use only. All other uses in the area appear to be city water to the best of our knowledge.

c. iii. The proposed well will be 8" in diameter and will be operated only to irrigate 1.02 acres of landscaping for six months of the year for the new vehicle dealership that is being built there. The total acreage of the lot is 8.5 acres with about 12% being required for landscaping.

19 d. i and ii. . The irrigation use is planned to be an instantaneous withdrawal of ~~0.07~~ ^{0.041} cfs for ~~30~~ gallons per minute for 5 hours per day on scheduled irrigation days. There would be a total of 140 days of irrigation. The withdrawal works out to be 5,760 gallons per day for 140 days for a total of 806,400 gallons or 2.47 acre feet per year.

0.041 ← Per T.C. with Nathan weeks

e. i and ii. The well is to be located on private property and there are no known issues with any other party's easements.

f. i and ii It is estimated that it will cost about \$8,000 to drill a well and install an electric pump. This is planned to be included in the construction loan being used to finance the construction of the multi-million dealership facility.

g. Comment has been sought from the Idaho Department of Environmental Quality and Idaho Fish and Game. It is my understanding that you are in receipt of those comments from them.

I look forward to your reply.

Dear Mr. Weeks:

RE: Water Right Application

IDFG has reviewed your application to Idaho Department of Water Resources to drill a well to withdraw 0.07 cfs in the mainstem Clearwater River drainage for irrigation of 1.5 acres of landscape plantings. You propose to withdraw the water from an estimated 150' deep well.

Although the cone of influence for the well you propose to drill near Clearwater River may affect the Clearwater River, the requested withdrawal is not likely to have significant impacts on surface water quantity and quality in the Clearwater River. Fish and Game has no objection to your request to drill a well to access groundwater to irrigate your landscaping.

However, we believe that the amount of water you requested is likely exceeding your actual needs. It is apparent from your application and a telephone discussion we had with you that, although the total property (place of use) may be 1.5 acres, most of the property will be paved and built space for an auto dealership. The actual portion of the property that is landscaped—the area that you intend to irrigate—would be much smaller.

In addition, we understand that, per IDWR policy, 0.03 cfs/acre is the maximum amount of water that can be allocated for irrigation for areas of 5 acres or less.

Since every withdrawal of water from either groundwater or surface water has a cumulative impact, we believe that every effort should be made to minimize individual demands on water resources in the Clearwater drainage. Therefore, before we can endorse your request, we request that you re-calculate the actual area to be irrigated and determine water demand based on that area, and then modify your permit application to reflect your actual needs.

Dear Mr. Weeks,

DEQ has received a copy of your correspondence to the Idaho Department of Water Resources requesting approval of your application to appropriate ground water from a well that will be drilled on Double Dollar Holding LLC property. Based on the information that has been provided, DEQ cannot estimate nor predict impairments to surface or ground water beneficial uses resulting from the requested withdrawal. However, assuming all federal, state, and local permits have been obtained, regulations met, and reviews completed, we can offer the following comments.

This activity will comply with all aspects of the Well Construction Standards Rules, IDAPA 37, Title 03, Chapter 09. All work will be completed following the guidelines, best management practices, rules and regulations found in "Idaho Well-Driller's Regulatory Compliance Guidebook", Marc McGregor, UI, distributed by the Idaho Department of Water Resources.

It is the policy of the State of Idaho, Ground Water Management Plan that existing and projected beneficial uses of ground water and interconnected surface water be maintained and protected and degradation that would impair beneficial uses of ground water and interconnected surface water not be allowed.

Thank you for requesting our review and comment of your activity.

Sincerely,

Re: Application For Permit to Appropriate the Public Waters of the State of Idaho,
#85-15684.

Dear Mr. Weeks:

Since you originally submitted your application, several new issues have developed, that need to be addressed during the processing stage.

Your property happens to be in the Salmon-Clearwater River drainage, which are considered sensitive basins. Idaho Code 42-203A(5) requires IDWR to evaluate the following criteria for applications to appropriate water:

- The potential to reduce the quantity of water under existing water rights
- The sufficiency of the water supply for the proposed appropriation
- The good faith nature of the application
- The adequacy of the financial resources of the applicant
- The local public interest in the public water resources
- The conservation of water resources in Idaho
- Impacts to the economy of the local area or watershed

To ensure that IDWR has sufficient information to evaluate the statutorily mandated criteria, Rule 40.05 of the Water Appropriation Rules (IDAPA 37.03.08.040.05) requires water right applicants to submit additional information to IDWR in connection with their applications. I have enclosed a copy of Rule 40.05 for your reference.

In accordance with Rule 40.05.c, the additional informational requirement is usually waived for applications proposing the appropriation of 5.0 cfs or less or the storage of 500 acre feet or less. Because the waters of the Clearwater River drainage are habitat for fish species listed as endangered or threatened under the federal Endangered Species Act, IDWR believes that caution is necessary to ensure that new appropriations of water do not undermine efforts to protect and restore the ESA listed fish species and other public values in the rivers and streams of the Clearwater River basin. As part of this cautious approach, IDWR is requiring that applicants submit the additional information required

less than the usual 5.0 cfs/500 acre feet threshold. Also, information about the local public interest must contain comments from the Idaho Department of Fish & Game, the Idaho Department of Environmental Quality and appropriate Forest Service if applicable.

Please submit the information required by Water Appropriation Rules 40.05.c through 40.05.g to IDWR within 30 days. For your convenience, I have highlighted the portions of the rules that apply to your application. If you need additional time to submit the required information, please submit a written request. IDWR can grant additional time "upon a showing of good cause". Water Appropriation Rule 40.05.d also allows an applicant to request that IDWR interrupt processing an application for up to six months. IDWR can approve the request if it will not injure others, it is consistent with the public interest, and it is not for speculative purposes.

If you have any questions, feel free to contact me at this office.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith E. Franklin". The signature is fluid and cursive, with a large, stylized "K" and "F".

criterion (e) of Section 42-203A(5), Idaho Code, as to any factor affecting local public interest of which he is knowledgeable or reasonably can be expected to be knowledgeable. The protestant shall bear the initial burden of coming forward with evidence for those factors relevant to criterion (e) of Section 42-203A(5), Idaho Code, of which the protestant can reasonably be expected to be more cognizant than the applicant. (7-1-93)

iii. The protestant shall bear the initial burden of coming forward with evidence for the evaluation of the public interest criteria of Section 42-203C(2), Idaho Code, and of demonstrating a significant reduction, except that the applicant shall provide details of the proposed design, construction, and operation of the project and directly associated operations to allow the impact of the project to be evaluated. (7-1-93)

c. The applicant has the ultimate burden of persuasion for the criteria of Section 42-203A, Idaho Code, and the protestant has the ultimate burden of persuasion for the criteria of Section 42-203C, Idaho Code. (7-1-93)

d. For unprotested applications or permits to be reprocessed, the director will evaluate the application, information submitted pursuant to Rule Subsection 040.05.c. and information in the files and records of the department, and the results of any studies the department may conduct to determine compliance with the appropriate criteria. (7-1-93)

e. In protested matters the director will take official notice of information as described in the department's adopted Rules of Procedure, and will, prior to considering, circulate to the parties information from department studies and field examinations concerning the protested application or permit being reprocessed, if such information has not otherwise been made a part of the hearing record. (7-1-93)

05. Additional Information Requirements.

a. For unprotested applications and permits being reprocessed, the additional information required by Rule Subsection 040.05.c. shall be submitted within thirty (30) days after the director notifies the applicant that the application or permit is being reviewed for decision. The director may extend the time within which to submit the information upon request by the applicant and upon a showing of good cause. Failure to submit the required information within the time period allowed will be cause for the director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. The director will provide opportunity for hearing as provided in Section 42-1701A, Idaho Code. (7-1-93)

b. For protested applications or protested permits being reprocessed, the information required by Rule Subsection 040.05.c. may be requested by the director to be submitted within thirty (30) days after notification by the director, may be made a part of the record of the hearing held to consider the protest, or may be made available in accordance with any pre-hearing discovery procedures. Failure to submit the required information within the time period allowed will be cause for the director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. (7-1-93)

c. The following information shall be submitted for applications to appropriate unappropriated water or trust water and for permits being reprocessed for trust water. The additional information submittal requirements of this rule are waived for filings which seek to appropriate five (5) cfs or less or storage of five hundred acre-feet (500 AF) or less and for filings seeking reallocation of trust water which the director determines will reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. However, the director may specifically request submittal of any of the following information for any filing, as he determines necessary. Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows: (7-1-93)

i. For applications appropriating springs or surface streams with five (5) or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted. (7-1-93)

ii. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing wells and springs and permitted wells within a one-half mile radius of the proposed well.

RE: Application for Permit to Appropriate the Public Waters of The State of Idaho

I am in receipt of your letter of June 26, 2006. Thank you for following up to your prior letter of June 5 as I did not receive that letter.

The information you requested follows. Double Dollar Holding, LLC is a Limited Liability Corporation organized in Montana. It does not have officers per se as it is managed by members. The ownership of that company is by three individuals.

Karl Tyler with 75%,
PO Box 16025
Missoula MT 59808

Pat Kelly with 20%
2117 Carol Dr
Lewiston ID 83501

Rick Linville with 5%.
15970 Seminole Dr
Frenchtown MT 59834

I have included the information from the Montana Secretary of State's website outlining the current information on the LLC.

Yes, we definitely are interested in pursuing a water right. Thank you for your attention to this matter.
