1. dnelson 9/19/2003 Legal Notice Remarks

Comment: Applicant agrees to mitigate consumptive use in the future as needed. Commercial use is for cleanup for replacement heifer feedlot.

2. dnelson 9/19/2003 Comment/Analysis

Comment: This application was filed to allow expansion of an existing replacement dairy heifer feedlot. Water right 57-7392 allows stockwater for 1600 head of dairy cattle. This application will allow sufficient water for an additional 3,000 head of cattle. Water use will vary depending on size of heifers. This is not a dairy milking facility. It only raises heifers up to the milking stage. Once application is complete the facility would be allowed sufficient water from 4600 head of cattle. The commercial use is only for cleanup purposes around the facility. No dairy milking will be done in this facility. This application should have a condition stating that this right does not allow the use of a milking parlor or other dairy milking facilities.

3. dnelson 11/6/2003 Legal Notice Remarks

Comment: The above application was advertised incorrectly on October 1 and 8, 2003 with an incorrect date filed. The corrected date of 7/14/2003 is listed above.
