RE: WATER RIGHT TRANSFER ON RIGHTS 65-3222, 65-3223, AND 65-8290

Ladies and Gentlemen:

On 5/22/2003, we received an application for transfer on the above water rights. The transfer was filed to correct an error during the Snake River Basin Adjudication (SRBA) process.

During my review of the application, our office agreed that the components of the water rights you described were in error. The components described in the transfer were not actually decreed by the SRBA court. The condition in question and the ArcView maps are tools our office uses to properly regulate your water rights, and were not included in the actual decree. Taking this into consideration, the transfer in essence really didn't make any changes to the actual decree.

Therefore, it has been decided to correct these errors outside of the transfer process. Although this is rarely done, it was the best approach to your unique situation. I am returning your transfer with this letter, and have sent a request to our state office staff to refund your transfer fee. I have enclosed with this letter the new ArcView maps created for your water rights, and profile reports showing the changes made to the conditions.

Please review these documents to ensure they are correct. If you have any questions or concerns please contact me at the above address.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent
