Re: Petition to Correct and Amend Licenses – 37-7268, 37-7454, 37-7602 and 37-8679

Dear Mr. Peppersack:

This letter responds to your August 10, 2006 letter regarding the above-referenced matter. On behalf of the Huysers, I am pleased to enclose with this letter four executed Applications for Amendment along with a check in the amount of \$200 to cover the associated filing fees.

As you will note, the Huysers accept IDWR's analysis with regard to the priority date and acreage determinations, although these determinations differ in certain respects from what was requested in the Petition to Correct and Amend Licenses. However, the Huysers continue to believe that a 6.2 cfs or even 6.28 cfs combined quantity limitation is not justified under the circumstances and they have noted this on the second pages of the enclosed Applications for Amendment. Accordingly, the Huysers would like to continue to pursue this matter. We would welcome any suggestions IDWR would have as to whether a meeting with the Huysers' engineer, or some other arrangement, would be an appropriate next step for addressing this matter. I also would note that a proposed condition is struck from one of the enclosed Applications as with the priority date adjustment, this more recently imposed condition should not apply.

I look forward to hearing from you as to suggested next steps for addressing the combined quantity issue. Thank you for your attention to this matter.

Sincerely,

HOFSTETTER LAW OFFICE, LLC
