Room #140
Boise, ID 83702

Dear Mr. Martinez:

Per our recent conversation , I am one of three protestants for the point of diversion transfer #72547 in the Name of Joyce Pearson. This transfer has not been approved and the formal hearing for this transfer is scheduled for October 11, 2006 beginning at 9:00 AM in the Glenns Ferry City Hall Chambers, Glenns Ferry Idaho. The presiding officer at the hearing will be Gary Spackman.

On September 13, 2006 I observed from the Morrow Reservoir Road Bridge, over Little Canyon Creek, the proposed diversion site, that has not been approved . Stream bed alterations appear to have been made to construct a diversion site in the Little Canyon Creekbed, and the diversion installed.

I have taken pictures of the site, and they are included.

Does this diversion construction comply with the Rules and Regulations of the Department of Water Resource and Army Corps Of Engineers since this is a proposed transfer of diversion point that has not been approved and is currently being contested?

Sincerely,

Robert K. Hall
