Shelly,

For your info. Mike will probably be contacting you about this ammendment.

Dave

Subject: Three Mile Water District- Water Right Amendment (#98-7818)

Dave,

Earlier today I faxed you a copy of a letter and application to Bob Haynes that I sent November 28, 2006. I understand from a conversation with Keith Franklin in February that the application was forwarded to your Boise office in January 2007.

Alan Beardslee did call me today to discuss the issue of drilling the proposed well before the amendment is complete. I talked to the Three Mile Board Chairman, Jack Tice about the idea of drilling, with the expectation that the amendment would materialize without a protest. Jack would prefer to have the amendment complete before moving forward to drill, to ensure that the money invested in a new well is not wasted. Jack asked me to contact the person in Boise responsible for the review of the submitted application. Please provide me with a contact name and number for that person.

Thanks for all of your help.

Sincerely,

Mike Klaus
