RE: Three Mile Water District - Water Right Amendment (# 98-7818)

Dear Mr. Haynes:

Attached with this letter is an application to amend a water right permit for the Three Mile Water District. The District currently has a 3 CFS municipal water right permit with four points of diversion located in the SE ¼ of the SW ¼ of Section 01, in township 62N, range 01E in Boundary County. With the attached application, the District requests adding an additional point of diversion at the location described.

With this letter, the District also requests permission to drill the new well that would be used as the new point of diversion. It is my understanding that the District could not utilize the additional point of diversion until the amendment is approved by IDWR. Please advise if any other requirements exist that must be fulfilled prior to drilling the proposed new well.

Thank you,

Michael B. Klaus

Michael B. Klaus, P.E.

Place(s) of use: No POUs found for this right

Conditions of Approval:

1.	26A	Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
2.	046	Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
3.	01M	After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
4.	126	Place of use is within the area served by Three Mile Water District.
