Gentlemen:

We have received a well drillers report indicating that a well was drilled for you in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ , Sec. 20, T. 6N, R. 40E, B.M., Madison County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

If you have any questions, please contact this office.

Very truly yours,

LOY H. JOHNSON

Re: Permit No. 22-7106

Madison School District #321  
Attn: Sylvan Butler, Business Mgr.  
Rexburg, ID 83440

Dear Mr. Butler:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our District Office in **Idaho Falls.**

Sincerely,

D. Darlene Reich  
Water Rights Supervisor
