TO: FILE NOS. 22-02267/07042/07206/07255 & 07261

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4750

DATE: October 30, 1996

=====

Transfer No. 4750 was filed to change/add points of diversion and change the place of use under all of Right Nos. 22-07042, 22-07206 and 22-07261, and a portion of Right Nos. 22-02267 and 22-07255, splitting each right into parts A and B. The transfer proposes to combine these five groundwater rights under a single system with six interconnected wells serving a large permissible place of use of 1613 acres. Companion Transfer No. 4751 combines decreed surface rights to serve the same system.

Evaluation of these rights as licensed found a maximum of 1525 total licensed acres. The transfer proposes to irrigate a maximum of 1467 acres under these rights. Stockwater use was dropped from Right No. 22-07042. Season of use and diversion volume were adjusted to current standards.

Recommended conditions include multiple points of diversion, measuring devices, future annual reporting, irrigation overlap, right-of-way, supplemental groundwater, permissible place of use, combined limits and standard transfer conditions.

*Question on acres irrigated under all of the water rights

Dear Mr. & Mrs. Hatch:

One of the conditions of approval of your water Permit No. 22-7042 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Rhoads:

I hear from our farm manager, Vern Little, that your field examiner is having trouble completing our Proof of Beneficial Use on Permit #22-2267, due to the fact we drilled a third well under this permit number last fall, but did not have the pump installed by the March 16, 1976 cut-off date.

We have an active well Permit #22-7042 on the adjacent property which, by amendment, may serve to cover this third well. The relevant facts on this permit are as follows:

Originally filed: March 30, 1968 (approx.)

Permittee: Owen J. and Darla Neeley

Assigned to: George C. and Wilda Gene Hatch

Applied for: 240 inches to irrigate 240 acres (SW $\frac{1}{4}$ Sec. 31 T 6 N, R 46 E
and W $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 6 T 5 N, R 46 E)Current Wells: SE $\frac{1}{4}$ SW $\frac{1}{2}$ Sec. 31 (installed and operative in 1972)
SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 6 T 5 N, R 46 E (operative in 1976)

This latter well is the one originally drilled under #22-2267.

I would appreciate your sending me a copy of Mr. Neeley's original permit application #22-7042, so I can complete an Application for Amendment on the acreage to be irrigated under this permit. Where the well will be located on property not owned directly by George and Wilda Gene Hatch, you may require additional forms to cover this matter, too.

If there are further questions you need answered in order to put our water filings in order, please let me know.

Re: Permit No. 22-7042

Dear Mr. McEldowney:

I appreciated your letter of August 27th with respect to assignment of well drilling permits. I have referenced above the permit which was issued in connection with a piece of property acquired by our client. You have indicated that if I provide to you the permit number, you will advise me on the steps necessary to be taken to transfer ownership of the license. I would appreciate your advise detailing the necessary steps to be taken in completion of the assignment of this permit. We, of course, are most anxious to insure full compliance with the assignment procedures.

Would you please provide me with a summary of the filings which have been made by Mr. and Mrs. Owen J. Neeley, the original recipients of the permit, relating to proof of construction and proof of diversion of the water to beneficial uses.

Yours very truly,

E. Nordell Weeks
