Dear Mr. McEldowney:

Our water permit No. 22-7037 indicates that proof of construction of works and application to beneficial use should be submitted before October 1, 1975.

On October 20, 1970, we completed construction of our concrete holding tank, pump and water line as outlined in our permit application. We have been using the water for domestic purposes at the house and in watering our stock at the barn since then.

I enclose copies of our bills for the construction work. These bills have been paid

Herdtt Electric	\$42.10	electrical hook-up of pump
Driggs Plumbing	2150.00	pump, water line, electrical cable, etc.
Nipko Construction	325.00	digging of line and spring area

Total 2517.10

I am not certain what procedures we should follow at this point. We invite your department to inspect the set-up if this is necessary. Please let us know what should be done at this time as we would like to complete the proof of construction of works and application to beneficial use.

Sincerely yours,

Dear Mr. Grandy:

We are herewith returning your application for permit and personal check in the amount of \$10.00.

We find in reviewing your application that there appears to be a discrepancy as to the point of diversion. Under item 3a, you list the point of diversion as being the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 22, T. 3 N, R. 45 E, B. M., Teton County. On the map on page three,

you have listed your point of diversion and place of use both as being the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22, T. 3 N, R. 45 E, B. M.

As soon as you have made the necessary corrections and resubmitted the application with the \$10.00 filing fee, we shall begin its processing.

If we can be of any further assistance in this matter, please feel free to contact us.
