Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may arrange to have someone show him the system.

If someone in particular should be contacted by the examiner, please advise our District Office at 240 South Holmes, Idaho Falls, Idaho.

Gentlemen:

One of the conditions of approval of your water Permit No. 22-7021 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

This Permit was due for final proof on or before July 1st, 1971, and prior to that time, a one year extension was granted to July 1st, 1972. The reason for the extension was because a measuring device was not available at that time as required by 7b in the proof of application form. We now have the measuring device ready for measurement when the water is turned on this June.

Would you please send another proof of application blank to be used in this matter.

Dear Sirs:

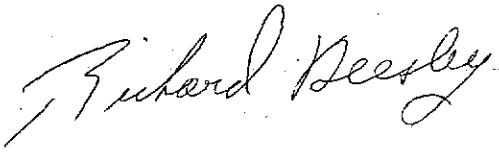

We would like to make a request for an extension of time on the beneficial use affidavit of our water permit 22-7021.

It seems that our irrigation supplier is having some difficulty in obtaining the type of water measuring device recently required by your department.

This meter is on order and should be here within the very near future. However, it will be impossible for us to have said meter installed and the information back to your office by the deadline date of July 1, 1971.

We would hope that you will consider our request for an extension of time and let us know at the earliest date.

Gentlemen:

It has been brought to our attention that on or about
October 10, 1968, you had a well drilled.
The well is reported to be located at a point in the
NENE, Sec. 30, T. 6N, R.
41 E, B.M. for irrigation use.

A search of our records has failed to find your application or approved permit. Under existing Idaho Statutes, Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are required to file and obtain an approved permit before you divert waters from a subterranean source, with the exception of domestic wells which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the Department as to your permit number. However, if you have not yet filled out an application for permit, please use the instructions and the blank application form which we have enclosed.

Dear Mr. McEldowney:

Mr. Beesley brought your letter of April 9th to my office for reply.

To review the history of this matter, I enclose herewith the original application for permit sent in by Mr. Beesley, dated October 23, 1968. This application was returned to Mr. Beesley because the wrong form was used. He subsequently asked me to make the proper application on the proper form, which I did after some correspondence with your office. You may recall that Mr. Beesley had previously applied for a permit covering two wells, but only drilled one. This recent permit, which was sent in by me last March, covered a portion of the land covered by the original permit.

The second application, to which I refer above, was sent in accompanied by a check, which check in the amount of \$60.00 was dated March 20th and endorsed by your office on the 27th of March. I am sure, if you search your records you will find my correspondence and this last application.

Please advise.

Re: Charles Beesley, Rexburg, Ida.

Dear Mr. McEldowney:

Mr. Beesley brought your letter of April 9th to my office for reply.

To review the history of this matter, I enclose herewith the original application for permit sent in by Mr. Beesley, dated October 23, 1968. This application was returned to Mr. Beesley because the wrong form was used. He subsequently asked me to make the proper application on the proper form, which I did after some correspondence with your office. You may recall that Mr. Beesley had previously applied for a permit covering two wells, but only drilled one. This recent permit, which was sent in by me last March, covered a portion of the land covered by the original permit.

The second application, to which I refer above, was sent in accompanied by a check, which check in the amount of \$60.00 was dated March 20th and endorsed by your office on the 27th of March. I am sure, if you search your records you will find my correspondence and this last application.

Please advise.

Yours very truly,

W B Kennedy

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant
