

MEMORANDUM

Date: February 02, 2007
To: Water Right File 75-14301
From: scox
Re: Evaluation Memorandum

The potential to reduce the quantity of water under existing water rights: This pond is in the ditch flow. The pond should fill within a couple of hours then the flow will continue in the ditch. There should be no impact any other users or water rights.

The sufficiency of the water supply for the proposed appropriation: There is plenty of water in the ditch, per applicant and Id Dept of Fish & Game.

The good faith nature of the application: Applicant has every intention of completing this project as soon as he receives his permit. Applicant has been very involved in getting information required to keep the process going. He is very anxious to have it completed.

The adequacy of the financial resources of the applicant: Applicant states to widen the ditch is approximately \$2000.00 and is within his financial means.

The local public interest in the public water resource: Idaho Dept of Fish and Game was against approval of this application as of 8/10/2006. But applicant has worked with Fish & Game and they have withdrawn their protest issues as of 1/19/2007. DEQ is ok with project.

The conservation of water resources in Idaho: This is for beneficial use for .16 cfs for aesthetics and 118.7 af for storage.

Impacts to the economy of the local area or watershed: None anticipated at this time.
