DEPARTMENT OF WATER RESOURCES

Memorandum

TO FILE : Permit #63-31562

Tim Hepper

DATE: 1/23/03

FROM: J. Westra, Western Reg.

RE: Omission of Lot #9 from the Permit

On 1/22/03 Mr. Hepper visited the regional office, questioning the reason that lot #9 (common area) was omitted from the approved permit. As I did not know the details, I checked the paper file at the SO. In reviewing the file, lot #9 is common area, and not associated with any residence to fit the domestic definition. In order for the Department to process the application, lot #9 had to be omitted under the Boise Basin Moratorium. Lori Graves, agent reviewed the application, and indicated Mr. Hepper's engineer was aware of the criteria for the Department to process the application. The application was amended, and agreed to by the engineer.

I contacted Mr. Hepper and explained what I had found. I stated, he could protest the permit approval in writing if the letter was received within 15 days of his approval letter date.
