N. Stanley Standal Jr.
609 River Road
Bliss, ID 83314

Dear Mr. Standal:

As you recall, in February of this year, you filed an Application for Permit to appropriate 4.0 cfs of water from an unnamed stream for power use on property you own near the Snake River south of Bliss. Review of the file indicates that additional information must be submitted in order to continue processing your application. The additional information is outlined below and on the enclosed pages...

- A completed residency affidavit (copy enclosed) must be completed and submitted as required by Section 42-205 and 42-206, IDAHO CODE.
- A certified financial statement or financial commitment letter indicating financing will be available to appropriate water and apply it to the intended use pursuant to Rule 40.05 of the Water Appropriation Rules (IDAPA 37, Title 03, Chapter 08).

Please note that if this information is not received within 30 days of the date of this letter, the Department will void your application. If the information is received within 30 days the Department will proceed in the processing of your application. However, as outlined in my April 24th letter (copy enclosed) the Department will be able to approve no more than 2.79 cfs, rather than the 4.0 cfs applied for.

If you have any questions, or if I can be of any further assistance, feel free to contact me at your convenience.

Sincerely,

Corey Skinner, PE
Water Resource Engineer
