Re: Black Rock North Subdivision Case No. S-873-06

Attn: Mark Mussman, Planner III

I am writing to correct an error our December 11, 2006 comment letter on the above referenced subdivision. The water supply for this development would come the system of Black Rock Utilities that supplies water for the Club at Black Rock. The Black Rock Utilities water system consists of two separate components, one that supplies potable water and one that supplies irrigation water. The water right for the potable water system may be used to serve the Black Rock North development as long as the diversion capacity is not increased. In order serve irrigation water to Black Rock North development an amendment to the permit used to serve the Club at Black Rock is necessary. Black Rock Utilities has made such a filing with us. The proposed change was protested and administrative hearing on the matter is scheduled for February 27.

If you have questions, please contact me.

Sincerely,

Robert G. Haynes, P.E.
Regional Manager

Cc: Black Rock Utilities
