Subject: Rustic Acres

Dan –

In response to your telephone message, the estimated water requirements for Rustic Acres application for permit 63-32389 are 0.32 cfs for in-home domestic use at 45 homes and 0.08 cfs for residential irrigation on a maximum area of 4 acres. Let me know if you need additional information.

Subject: Application for Water Right Permit – Rustic Acres Mobile Home Park

Dear Steve:

Enclosed on behalf of Rustic Acres MHC is an application proposing appropriation of 0.40 cfs of groundwater for domestic purposes to serve 45 homes. These 45 homes are part of an expansion area that is not covered under the existing water right license (63-7674B) for Rustic Acres Mobile Home Park. The homes were served previously by United Water Idaho. The previous owner of the Park applied for a water right permit (63-31182) in 2001 to serve these homes from the Park public water system. Unfortunately, the previous owner (Kilgret PTY LTD) did not assign the permit when Rustic Acres MHC purchased the property. The permit has now lapsed, and Rustic Acres MHC is now reapplying to obtain authorization for this water use.

A check for the \$250 filing fee is enclosed. Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E.
