Re: transfer evaluation

This transfer proposes to move 14 acres of this groundwater right into this other system to complete the current use with existing water right 31-7370A. Existing well. Irrigating more acres than what decreed to 31-7370A.

Authority to File:

Applicant is the owner of record as far as the SRBA decrees for both rights

Water Right Validity:

This water right was decreed in the SRBA in 2002

Air photos from 2006 show it to be irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

Inside the ESPA area and in Water District 110. The new well is in the same cell, no groundwater model analysis is needed. Watermaster will comment.

Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
