RE: Permit 2-7113

Hey Kay, Billy Wolfe submitted this request 5/12/2004 to reinstate his permit's priority date from 12/28/1976 to 5/21/1973. Shelley thought that Billy had cause for his request based on the attached that I reviewed with him via telecon 5/5/2004. The field exam has been done and sent to the SO where the permit is waiting to be licensed. I'm not sure at what stage the priority would be changed...whether during or after licensing. Maybe Shelley knows.

Also, Billy thinks a few more acres should have been recommended. I told him to submit dated documentation ASAP (maps, crop records) indicating that the system provided water to additional acres in 1988, which was the year that the first proof was filed. I'm not sure he will be able to prove his case, but we'll see what kind of information he provides.

Let me know if you have any questions Kay.
