Describe the reason for the proposed changes

Application filed to convert 20.5 acres of irrigation rights to stock water and commercial use associated with a new CAFO adjacent to an existing CAFO. The rights at the existing CAFO will also be modified to allow for use at the new CAFO if needed. Both CAFOs are calf-rearing operations. The basis for the total volume transferred is based off of current water meter readings (water use) at the existing CAFO increased proportionally to account for the amount of water needed at both facilities.

4. FOR CHANGES IN NATURE OF USE ONLY

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

waste water will be contained in lagoons and land applied as needed.

B. Describe the effects on other water uses resulting from the proposed change

none anticipated

Farm Credit Services

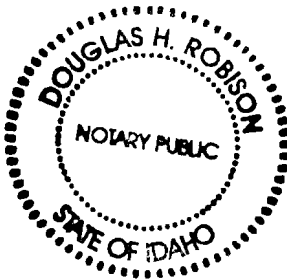

May 8, 2006

Idaho Dept. of Water Resources

To Whom It May Concern:

Cody G. Morgan has notified Farm Credit Services regarding his pending application for transfer of water rights under Idaho Department of Water Resources Transfer # 72741. It is also our understanding that transfers and amendments of these rights needs consent from mortgage holders who have liens on the ground associated with the points of diversion and use. Farm Credit Services, who holds the underlying land under Mortgage under Transfer #72741, does not object and gives full consent to pursue the completion of the transfer of these water rights.

Please transfer this letter to the correct department or person working with Mr. Morgan on this transfer. Should there be any additional questions or concerns, please give me a call.

Sincerely,

Doug Robison
Credit Officer
Farm Credit Services, Burley
