Subject: RE: Question

Kathleen,

I don't believe that it would be of any harm for the Department to send a letter on your behalf to request that they *"refrain from spending any more District monies on any municipal status related plans or studies or projects until there is a decision by IDWR regarding their application for that status."* However, I believe that you are aware that such a letter would be non binding since the Department does not possess the authority to hold them to or punish them for disregarding such a letter. Ultimately, your question needs to be addressed by Mr. Spackman. I have attempted to contact him this morning but his calendar says that he is scheduled to hold a hearing in the Boise area today. I don't know if I will be able to communicate with him today, but will try.

regards,

Roger.

Subject: Question

Dear Roger,

In light of what Gary Spackman said in the telecon yesterday, would it be appropriate for us to ask IDWR to send a letter to the William's Lake Recreational Water and Sewer District asking them to voluntarily commit to refrain from spending any more District monies on any municipal status related plans or studies or projects until there is a decision by IDWR regarding their application for that status? I would appreciate your timely reply as we will have to seek an injunction if IDWR cannot make that request.

Thank you.
Kathleen Gliksman
