Subject: Request for Documents
Date: Sep 7, 2006 6:38 PM

On Tuesday, September 5th, 2006, I was asked by the Williams Lake Water and Sewer District Board to respond to your request for Discovery Documents.

The information requested will be time intensive in researching through 12 years of files from current files and files in storage.

Due to the deadline date of September 11, 2006 and my previous time sensitive commitments, this request is burdensome and virtually impossible to complete by the deadline date.

I will however handle your request but unfortunately it will not be attainable by the deadline date.

As soon as I can approximate the time needed to research through 12 years of material I will notify you of my estimated cost to complete this project. My rate per hour is \$45.00. I do know that the cost of copies of minutes has been set at \$5.00 per month. The estimated cost would have to be paid in advance.

Mr. Mulkey, would you also please clarify the beginning date of minutes that you requested. Item 1 just states January 200.

Doreen Mildon
Treasurer
Williams Lake Water and Sewer District
