

MEMORANDUM

Date: January 23, 2007
To: Water Right File 75-14385
From: scox
Re: Evaluation Memorandum

The potential to reduce the quantity of water under existing water rights: This a proposed well for irrigation use for .03 cfs for 1.3 acres. There should not be a potential of reduction in the amount of water due to most wells are producing 30 gpm. Based on existing well information in the area there is more than an adequate supply of water for proposed well.

The sufficiency of the water supply for the proposed appropriation: The quantity of water needed is normal for the amount of irrigation.

The good faith nature of the application: Applicant plans on having project finished by the end of 2007.

The adequacy of the financial resources of the applicant: The cost to drill the well is \$2000.00 with the yearly maintenance of \$50.00.

The local public interest in the public water resource: Comment letters from Idaho Fish & Game and Id DEQ have been received by the Department and they have no concerns or objections at this time.

The conservation of water resources in Idaho: This is a beneficial use, this is for .03 cfs, for irrigation of 1.3 acres.

Impacts to the economy of the local area or watershed: None anticipated at this time.
