

MEMORANDUM

TO: JAN SHURTE

FROM: DANIEL A. NELSON

DATE: 3/24/06

SUBJECT: REQUEST FOR EXPEDITED CLAIM REVIEW RIGHT 63-31194

Hello Jan. This is the formal request for an expedited claim review for water right 63-31194. This is the right involved with the transfer that we spoke about last week that needs to proceed with processing. The State Office has asked us not to hold this one. I have included the profile reports and inventory search. It appears as though it hasn't been assigned to anyone yet. Even though I am working part time with the adjudication at this point, I feel it would be best to have another person do the recommendation. That way we can keep the two processes separate. There are some underlying disputes involved in this transfer, so I think it would be best if we kept the transfer review and adjudication review independent of one another. Both parties have attorneys, so I want to make sure that I don't make any procedural errors on this one.

The main issue with this transfer has to do with the ownership issues. Jeff Peppersack has been working on the changes in ownership, and has decided that the water right should be in the name of Sundance Investment LTD, Partnership. Please feel free to include a copy of this memo in the adjudication file, and to have the adjudication agent reviewing these file come speak with me as necessary. I will do everything I can to help out on this one.

Thank you Jan, I appreciate the time and effort.
