WATER RESOURCES
WESTERN REGION

Dear Mr. Nelson:

In response to your comment letter dated October 5, 2004, the following is the additional information you have requested.

1. The land lies within the SENW rather than the SESW. The application has been updated to reflect this change.
2. Section (A1) has been completed on the application.
3. Application has been revised to indicate that the 48.5 acre is within the 80 acre parcel.
4. A map of the original well location is attached.
5. I have attached a copy of the water rights to the well at the new point of diversion.
6. Pinnacle Engineers, Inc. will consult with the owner regarding this matter for their direction.

If you have any questions or comments, please don't hesitate to contact me at (208) 887-7760.

Sincerely,

Steve Solecki
