10. Remarks:

This application will provide water for the continued irrigation of trees in a low area south of our home. The trees have historically survived on wastewater from the adjacent property to the west via wild flooding. That property is being subdivided, so the field runoff will probably cease. Therefore, we want to develop our own system to keep the trees alive without having to use our domestic well. The re-diversion works will be shared with our neighbor to the north (Charles Wagner), who will apply for his own permit.

1-2-2007. The application is being corrected to agree with the SRBA recommendation as to the point of diversion for this waste stream that also serves the Qualls property to the west.

11. Map of proposed point of diversion and place of use attached? ☐

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
