Subject: transfer

Roger,
I spoke to Troy Bodily today about an ownership change. He filed an ownership change on rights 13-2292A/B and 13-2154A/B. The B parts are ok and we'll process the owner change for those. The A parts were transferred in 1997, apparently to the incorrect location. Unfortunately, the transfer was approved based on the application locations, not due to an IDWR error. We can't update the ownership on the A parts because Mr. Bodily doesn't own all the land listed on the water rights (specifically, 7 acres listed as SENW in Sec. 36). Mr. Bodily plans to file a transfer to change those 7 acres to the correct location in the SWNW of Sec. 36. That's also the location where the water has been used since the 97 transfer. I don't think we'd need to advertise the transfer. I told Mr. Bodily that he could apply the \$50 paid for the ownership change on the A parts to the transfer. I also told him that he would need a letter from the owner of the land in the SENW to give his ok for the transfer.

You might hear from Mr. Bodily in the near future as he prepares his transfer for submittal.

Jeff
