Doug - As we discussed, this right needs to be shown as fully decreed in the database in order to facilitate processing of T. 69699. Please accomplish this as soon as you are able. Is it possible to go back at this point and incorporate T. 3912 into this record before the final decree (this 1992 transfer involves both of these claims)?

Also, Claim 36-15152 has numerous objections (it is an expansion of 2324). Is it possible to get the ball rolling on resolving these objections? The transfer will be stuck in limbo until this right is decreed, so something will have to be done sooner or later.

Thanks.
