Hi Jerry:

I'm not sure what you mean in particular but hope we can provide better help in the future.

Do you recommend approval of the Boulder application?

Thanks.

Steve

Subject: Watermaster Comments for Boulder Irr District Application

Jerry:

This office sent you a watermaster comment letter on 9/1/2006 for the Boulder Irrigation District Transfer Application No. 72756. The application proposes a simple revision to the place of use boundary to recognize irrigated land owned by John Carey.

The application will update the place of use for company water rights nos. 65-2308 and 65-2916.

We have not received your watermaster comments yet. Please provide your written reply as soon as possible to allow the department to complete its work. You are welcome to make an email reply to me if that helps.

Please let me know if you need more information or have any questions. Thanks for your help.
