RE: License No. 98-7784 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order ~~shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).~~

NOTED 11/13/2007

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Permit No. 98-07784

Dear Mr. and Mrs. Hendricks:

We are in the process of reviewing your water right permit No. 98-07784 in order to issue a license based on the uses developed. We find that we cannot proceed with licensing until we receive an additional fee for your drilling permit that was issued on November 14, 1995. When your drilling permit No. 98-95-N-0042 was issued, it was issued for construction of a domestic well under a \$35.00 drilling permit fee.

A representative of our department conducted a field examination of the system developed from your well on May 30, 2001, and found that you use your well for domestic purposes and the irrigation of 1 acre. In order for us to issue your license for anything more than domestic purposes, we need an additional \$165.00 for the drilling permit issued in 1995. The drilling permit fees are based upon Idaho Code, Section 42-235, in case you would like to review this requirement.

Please submit the additional \$165.00 to my attention within the next 30 days so we can proceed with licensing your water right permit. If we don't receive the additional fee within the next 30 days we will assume you don't want to use your well for irrigation purposes and will issue your license for domestic purposes only. Please be advised that any irrigation use over ½ acre requires a water right and if you irrigate over ½ acre without a water right, you could be subject to a fine for each day irrigation occurs without a water right.

If you have any questions concerning this matter, please feel free to contact me at (208)327-7944.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

As a result of our phone discussion on September 24, 2001, we do not plan to irrigate more than ½ acre of our property. We understand that we can use up to 18 gallons per minute for a total of 13,000 gallons of water per day.

We are in the process of reviewing your water right permit No. 98-07784 in order to issue a license based on the uses developed. We find that we cannot proceed with licensing until we receive an additional fee for your drilling permit that was issued on November 14, 1995. When your drilling permit No. 98-95-N-0042 was issued, it was issued for construction of a domestic well under a \$35.00 drilling permit fee.

A representative of our department conducted a field examination of the system developed from your well on May 30, 2001, and found that you use your well for domestic purposes and the irrigation of 1 acre. In order for us to issue your license for anything more than domestic purposes, we need an additional \$165.00 for the drilling permit issued in 1995. The drilling permit fees are based upon Idaho Code, Section 42-235, in case you would like to review this requirement.

Please submit the additional \$165.00 to my attention within the next 30 days so we can proceed with licensing your water right permit. If we don't receive the additional fee within the next 30 days we will assume you don't want to use your well for irrigation purposes and will issue your license for domestic purposes only. Please be advised that any irrigation use over $\frac{1}{2}$ acre requires a water right and if you irrigate over $\frac{1}{2}$ acre without a water right, you could be subject to a fine for each day irrigation occurs without a water right.

If you have any questions concerning this matter, please feel free to contact me at (208)327-7944.

Sincerely,

KAY WALKER

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 98-07784

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the Northern Regional Office of the department in Coeur d' Alene at (208) 334-2190.

PROOF DUE NOTICE

RE: PERMIT NO. 98-07784

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

RE: Permit No. 98-07784

Dear Permit Holder:

I have enclosed a copy of the approved request for extension of time submitted in connection with the above referenced permit, which extends the time within which to submit proof of beneficial use to **November 1, 2000**. Please note that the department granted the extension based on due diligence. It is important that you work diligently towards completion of this project since the department **will not** be able to grant additional extension requests based on due diligence.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact this office or any regional office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me at (208)327-7953, if you have any questions regarding this matter.

Mr. Glen Saxton
State of Idaho Department of Water Resources
P.O. Box 83720
Boise, ID 83720-0098

Dear Mr. Saxton,

I am writing this letter to you as a result of the phone conversation that we had a few days ago - regarding our application and proof of beneficial use of the water for which we applied.

Our original application for water rights was submitted on August 21, 1997. At that time we were advised that we would have 3 years for completion of works to show beneficial use. The 3 years time is written on line 7 of the application.

The Permit to Appropriate Water sent to us was dated October 23, 1997 gave us only one year to show beneficial use. On item 3 of this permit, however, it states, "Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control."

We interpreted this to mean that item 3 gave us more than one year. However, we have already drilled the well (an \$18,000 system) and been watering a lawn, flower garden, initial start of a vineyard, several walnut trees, two cherry trees and several hundred conifers to which we are promoting growth. We are continually thinning of leaning, diseased and undesirable trees and slash, and have not completed the planting of numerous additional trees that we are planning.

Our project is a continual landscaping of the 3 acres to be irrigated plus the other 2 acres of our 5 acre property. There is no time that we can say the "project" will be completed since we will be improving on it each year. This is the last home in which we plan to live and consider this a lifelong project. As to "beneficial use" we probably have been close to using the 0.06 CFS in the irrigating during the past Summer - primarily through long hoses and sprinklers. We would like to have an additional year for proof of use - to have time for substantial more work to be done, so that there is no question of beneficial use.

Thank you for your consideration in this matter.

Sincerely,
Carl R. Hendricks

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 98-07784

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Re: Water Appropriation Application No. 98-07784

Dear Mr. and Mrs. Hendricks:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If your source is groundwater, a Well Drilling Permit is required for all wells constructed after July 1, 1987.

A "Domestic" well drilling permit should be obtained for a rate of diversion of up to 18 gallons per minute (0.04 CFS) and a daily volume of up to 2,500 gallons per day. The cost for this permit is \$75.00. For any other use, including multiple homes, or municipal, etc., the Drilling Permit fee is \$200. These Permits can be obtained by your driller, also. It is sometimes possible to upgrade an existing Domestic Drilling Permit by submitting a fee for the difference. This, however, depends on the individual well.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
