The Aqua Genie and Aqua Genie Kits AQ 80 & AQ 200

AQ80/AP-6i

The original constant-pressure home water system device.

The Aqua-Genie is an ideal system for providing fresh water reliably and under constant pressure. The AquaGenie operates on demand of 1/2 GPM or higher, making it economical while providing consistent service pressure that is comparable to municipal water supplies.

Features:

- ☐ **Less costly** than typical tank system.
- ☐ **Constant pressure** at flow rates of 1/2 gpm or higher.
- ☐ **Starts pump on demand and runs continuously as long as service is needed**, eliminating short cycling which is the major cause of motor wear and failure.
- ☐ **Provides fresh water at all times**, eliminating flat, stale-tasting water that may occur with large tank systems.
- ☐ **Less costly** than typical tank system.
- ☐ **Small size** allows for installation in tight areas.

~~AQ80~~

Provides constant pressure at any given flow rate above 1/2 GPM. As flow rate changes, the pressure changes with the pump curve and then holds constant at new flow rate. Maximum incoming pressure of 80 PSI. Small storage tank required. AQ80/AP-6i includes storage tank and pressure switch.

Important: AQ80 is recommended for jet pump applications.

→ AQ200

Provides constant pressure at all flow rates above 1/2 GPM. As flow rate changes, the pressure remains constant. Maximum incoming pressure of 200 PSI. Installed system must be capable of at least 75 PSI shut-off pressure. Small storage tank required.

→ **AQ200** consists of constant pressure device AND a pressure regulator. AQ200 is factory set at 50 PSI service pressure and is adjustable between 30 and 60 PSI.

Important: AQ200 is recommended for submersible applications. AQ200/AP-6i kit includes storage tank. **NOTE: Aqua Genies can be connected in parallel to handle flow rates above 20GPM.**

Water Right License

WATER RIGHT NO. 96-08903

Priority: September 20, 1995

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

6.0 AF

This is to certify, that DAVE WALL
LAURIE WALL

4020 PONDER POINT
SANDPOINT ID 83864

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated September 20, 1995; and has submitted Proof of Beneficial Use on December 12, 1997. An examination indicates that the works have a diversion capacity of 0.040 cfs of water from:

PEND OREILLE LAKE tributary to **PEND OREILLE RIVER**

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.04 CFS	6.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2 (SWNE), Sec. 12, Township 57N, Range 02W
BONNER County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
57N	02W	12	NWNE 1	Lot 2(SWNE) 1		2

Total number of acres irrigated: 2

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 96-08903 Telephone No. (208) 263-6548

2. Name(s) of Permit Holder(s): DAVE AND/OR LAURIE WALL

3. Mailing Address: 3300 BALDY MOUNTAIN ROAD, Sandpoint, ID 83864

4. Source of Water: POND OREILLE LAKE ☒ GROUNDWATER (well), Date Drilled: mo. / yr.

a. Well Driller: N/A Drilling Permit Number: - N/A -

b. OPTIONAL:
Pump Horsepower: Pressure (psi): Dynamic pumping level (ft):

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): Stockwater (No. and type of stock):

Irrigation (No. of acres): 2.0 Other:

6. Total rate of diversion and/or volume for which proof is submitted: .04 cfs OR acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes or No ✓

Has the measuring device been installed? Yes or No ✓

Flow Measurement Port: Is a flow measurement port required? Yes or No ✓

Has the measurement port been installed? Yes or No ✓

8. Fee Enclosed: \$ N/A (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Scott Kendrick → 208-687-9610
OR DAVE WALL → Telephone Number: 208-263-6548

Address: 3300 Baldy Mtn. Rd., Sandpoint, ID 83864

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Dave Wall

RE: WATER RIGHT NO. 96-08903

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

SEP 23 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

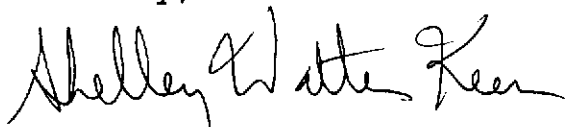

MICROFILMED

2 SEP 29 1998

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen".

E. NARRATIVE/REMARKS/COMMENTS

Water is being diverted to irrigate 2 acres of lawn using a 1.5 horse power submersible pump. Water from Pond Oreille Lake is pumped through a 1.25" PVC line (300 ft.) and is then fed through a 1" line ($\approx$ 300 ft) to 3 separate spigots.

Mr. Wall states that he is working on an automatic sprinkling system design, but is currently irrigating using garden hoses.

Mr. Wall also stated that the total area of his property is 2.4 acres.
~~less~~ 2.4 acres less $\approx$.4 acres for house - driveway = 2.0 acres of lawn

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 96-8903

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's Northern Regional Office in Coeur d'Alene at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

RE: Permit No. 96-08903

Dear Permit Holder:

I have returned a copy of the Proof of Beneficial Use statement you submitted in connection with the above referenced water right permit. The proof as filed is not acceptable since was not accompanied by the \$50.00 license examination fee. Permits which divert 0.04 cfs or less from a ground water source are exempt from the filing fee, however, you are diverting water from a surface water source (Lake Pend Oreille) and are not exempt from the fee.

Please return the copy of the proof form along with the \$50.00 license examination fee within **60 days** of receipt of this letter. **Please address your correspondence to my attention.**

Please contact me at (208)327-7953, if you have any questions regarding this matter.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

Ref: Your Letter dtd. September 30, 1997

Dear Ms. Yarbrough;

In accordance with the above referenced subject, I am faxing this to your attention to let you know that I have mailed the Proof of Beneficial Use Form to your attention on Friday along with supporting enclosures from the installer United Pump in Hayden Lake, Id.

After trying to contact you several times by phone, I felt that it would be necessary to fax you and send the forms for your review to meet the date due timeline.

If there is any further information that you will need please let me know since I will be leaving this area on November 21st for a few months.

Thank you for your assistance.

Cordially,

Sandpoint ID 83864

SUBJECT: STATUS OF IRRIGATION SYSTEM

RE: PROOF OF BENEFICIAL USE

David & Laurie:

This letter is a follow up to our conversation last week regarding the status of your irrigation system that we installed for you this year. As you are aware, the system was installed and then the pump was removed and "winterized" until spring of 1998.

I am sending along a copy of the pump performance curve for the irrigation pump and the Jacuzzi Aqua Genie AQ200 constant pressure valve we installed for your system. The Aqua Genie is rated at a maximum flow of 20 GPM which converts to .04 CFS. I have marked the 20 GPM/.04 CFS design point on the performance curve.

Please note that your system can only deliver up to 20 GPM/.04 CFS under pressure for your irrigation system.

If you have any questions regarding your system, or need additional information, please contact our office. Thank you, and see you in the spring.

JAN 12 1998

JACUZZI.

The Aqua Genie and Aqua Genie Kits AQ 80 & AQ 200

AQ80/AP-6i

The original constant-pressure home water system device.

The Aqua-Genie is an ideal system for providing fresh water reliably and under constant pressure. The AquaGenie operates on demand of 1/2 GPM or higher, making it economical while providing consistent service pressure that is comparable to municipal water supplies.

Features:

- ☐ **Less costly** than typical tank system.
- ☐ **Constant pressure** at flow rates of 1/2 gpm or higher.
- ☐ **Starts pump on demand** and runs continuously as long as service is needed, eliminating short cycling which is the major cause of motor wear and failure.
- ☐ **Provides fresh water at all times**, eliminating flat, stale-tasting water that may occur with large tank systems.
- ☐ **Less costly** than typical tank system.
- ☐ **Small size** allows for installation in tight areas.

~~AQ80-~~

Provides constant pressure at any given flow rate above 1/2 GPM. As flow rate changes, the pressure changes with the pump curve and then holds constant at new flow rate. Maximum incoming pressure of 80 PSI. Small storage tank required. AQ80/AP-6i includes storage tank and pressure switch.

Important: AQ80 is recommended for jet pump applications.

→AQ200

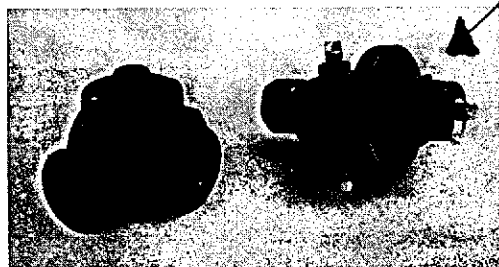

Provides constant pressure at all flow rates above 1/2 GPM. As flow rate changes, the pressure remains constant. Maximum incoming pressure of 200 PSI. Installed system must be capable of at least 75 PSI shut-off pressure. Small storage tank required.

→AQ200 consists of constant pressure device AND a pressure regulator. AQ200 is factory set at 50 PSI service pressure and is adjustable between 30 and 60 PSI.

Important: AQ200 is recommended for submersible applications. AQ200/AP-6i kit includes storage tank. **NOTE: Aqua Genies can be connected in parallel to handle flow rates above 20GPM.**

PROOF DUE NOTICE

RE: PERMIT NO. 96-08903

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1997. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

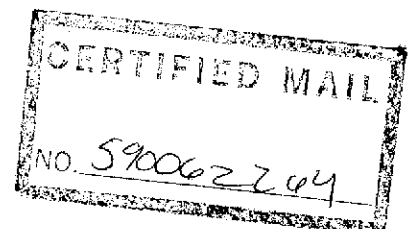

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 96-08903

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: Application for Permit No. 96-08903

Dear Mr. & Mrs. Wall:

I recently received the above application for permit for irrigation use of 0.04 cfs on 2 acres for processing. I noted that you paid \$100.00 in filing fees on September 20, 1995. The correct filing fee for your application is \$50.00.

You will receive a \$50.00 refund of the overpayment of the filing fee under separate cover.

If you have any questions, please contact me directly at (208) 327-7944.

Respectfully,

Cindy Zimmerman
Water Resource Agent

Subject: Water Appropriation Application for Permit Number 96-08903

Dear Mr. and/or Mrs. Wall:

The Idaho Department of Water Resources hereby acknowledges receipt of the above-referenced Application for Permit to appropriate the Public Waters of the State of Idaho. Enclosed is Receipt Number N009515. To assist us in providing you with prompt, accurate service, please refer to the above Application for Permit Number in all future matters concerning this water right application.

Your Application for Permit is currently being prepared for advertising in the local county newspaper. The advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for submittal of protests.

If your application is not protested, it will be forwarded to Boise for processing. Normal processing time is approximately 3 to 4 months, if the application is not protested. If your Application for Permit is protested, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before your Application for Permit can be approved. If the protest is not resolved, this Department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State Office in Boise.

If your Application for Permit is for a well (groundwater) that was constructed after July 1, 1987, you must apply for a well drilling permit upon approval of your Application for Permit if no permit was obtained by previous owners to construct the well. Well Drilling Permits can only be issued by this office to holders of approved Applications for Permit.

If I can be of further assistance, please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE

RE: Water Rights

Dear Mr. Wall:

Your name and address was given to us by Carl Washburn, of the Idaho State Department of Lands to contact you concerning water rights.

We understand that you have filed for an Encroachment Permit to divert water from Pend Oreille Lake. Our records indicate that you do not currently possess water rights for such a diversion of water.

Please find enclosed an Application for Permit to file for water rights. You must first obtain a Water Right Permit prior to diverting public water within the state of Idaho.

If you have any questions, please feel free to contact me at this office.

Sincerely,

Allen Beardslee

MEMORANDUM

DATE: September 11, 1995

TO: Idaho Department of Fish and Game
Idaho Department of Health and Welfare
Idaho Department of Water Resources
US Army Corps of Engineers
Panhandle Health District 1
Clean Lake Coordinating Council
Bonner County Planning & Zoning
Bonner County Public Works Department
Bonner County Marine Division
Clark Fork Coalition
Lee and Dorothy Crane - Adjacent Landowner
Allen L. Basso - Adjacent Landowner

FROM: *aw* Carl Washburn, Navigable Waters Specialist

SUBJECT: NOTICE OF APPLICATION - L-96-S-1054 - WALL, David

Enclosed is an application and plats requesting permission to riprap 50 lineal feet of shoreline and 50 lineal feet of concrete steps above AHWM and remove approximately 40 piling and approximate 8 concrete piers; construct 8' x 55' pier and placement of water intake system in Pend Oreille Lake.

Please submit your recommendations to me by September 26, 1995, regarding the likely effect of the proposed encroachment upon adjacent property, lake, and streambed value factors of navigation, fish and wildlife habitat, aquatic life, recreation, aesthetic beauty, or water quality. If you have concerns or are opposed to the project as proposed, please list your specific reasons for concern or opposition and any facts or documentation to support your position.

You should recommend alternate plans if they are economically feasible to accomplish the purpose of the proposed encroachment. You should also recommend any mitigation measures or special restrictions/provisions you would like included as part of the permit if one is issued.

If you do not submit a comment, I will assume you have no objections to the application. If you have questions concerning the application, I suggest you contact the applicant. If the applicant cannot answer your questions, please contact me (new fax 208/769-1557).

KEEP IDAHO GREEN
PREVENT WILDFIRE

EQUAL OPPORTUNITY EMPLOYER

JOINT APPLICATION FOR PERMIT
U.S. ARMY CORPS OF ENGINEERS
IDAHO DEPARTMENT OF WATER RESOURCES
IDAHO DEPARTMENT OF LANDS

SEPARATE PERMIT DECISIONS MUST BE
RECEIVED FROM BOTH THE STATE OF
IDAHO AND THE CORPS OF ENGINEERS
PRIOR TO START OF WORK

The Department of the Army permit program is authorized by Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. These laws require permits authorizing structures and work in or affecting navigable waters of the United States and the discharge of dredged or fill material into waters of the United States, including their adjacent wetlands. State permits are required under the State of Idaho, Stream Channel Protection Act (Title 42, Chapter 38, Idaho Code) and the Idaho Lake Protection Act, Section 58-142 et. seq, Idaho Code. This application will meet the requirements of the above agencies.

1. Corps of Engineers # _____
Date Received _____

2. State of Idaho # L-96-S-1054
Date Received _____
\$20 Rec'd By: _____ Receipt # _____

PLEASE TYPE OR PRINT

Mailing Address 3300 Baldy Mountain Rd.
Sandpoint, Idaho 83864
Work Phone ^{Area} (208) 263-6370 Home ^{Area} (208) 263-6548
Fax Number (208) 263-3959

4. Authorized Agent Architects Studio P.A.
Mailing Address 323 North First Avenue
Sandpoint, Idaho 83864
Work Phone ^{Area} (208) 263-8089 Home ^{Area} (208) 263-2665

5. Location where proposed activity exists or will occur.
Waterway Pend Oreille Lake
Sandpoint Bonner ID
In/near city or town County State
83864 Bonner County
Zip Code Local jurisdiction (city or county)

Tributary of: _____
Assessor's Desc. (Tax No. or Subdivision, Lot & Block No.)
49 (See instructions)
NE 12 57 2W or
1/4 1/4 Section Township Range
UTM Coordinate Grid Zone Northing Easting

6. Describe the proposed activity. Provide a general description of the proposed work including all discharges of fill material and any structures such as piers, floats, boat lifts, bulkheads, and cofferdams.

Shoreline Protection- 50LF of clean rock rip-rap, boulder size will be 12 to 18" in diameter
50LF of concrete steps, rough texture. Removal- approx. 40 wood pilings and approx. 8 concrete
piers. Dock Construction- Approx 8 to 10' wide X 50 to 55' long with boat lift.
Irrigation- Submersible pump approx. 100' from shoreline, for irrigation purposes only.

Describe construction methods and equipment:

Piling removal, rip-rap placement, irrigation and electrical line trench with backhoe.

Wood forms and concrete.

List all soil series located at project site, and indicate if any are on the county's hydric soils list:

14 - Haploxerafls and Xerochrepts

Length of project along the stream or extension into lake or reservoir: Approx. 88LF

Will material be placed waterward of ordinary high water mark? No If yes, volume: _____ (cubic yards)
(BOTH TEMPORARY AND PERMANENT)

Will material be placed in wetlands? No If yes, total area: _____ (acres)

Type and composition of fill material: Rip-rap, Concrete (i.e. sand, etc.) Material Source: C.E. Kramer

Will excavation or dredging be required? No If yes, volume: _____ (cubic yards) Composition _____

Disposal site for excavated material: _____ Method of excavation: _____

Stream gradient: N/A

Method of controlling turbidity and/or sedimentation: Construct during spring or fall pool

7. Size and flow capacity of proposed bridge or culvert and area of drainage served (sq. miles): (Idaho Department of Water Resources requirement.)

N/A

8. Preparation of drawings. One set of original or good quality reproducible drawings must be attached to this application. NOTE: DRAWINGS NO LARGER THAN 8-1/2 X 11 INCHES IN SIZE. See the application pamphlet for instructions and a checklist for completing the drawings. Include photographs of the project site mounted on 8-1/2 x 11 sheets.

9. Purpose and intended use: Commercial _____ Public _____ Private X Other _____ Describe Shore Protection and Dock

Necessity and justification for project Shore is being eroded by wave action. Recreation.

10. Proposed Starting Date 10/95 Estimated Duration 30 days maximum

11. If any portion of the activity is complete, indicate month and year of completion _____
Indicate the existing work on the drawings.

12. Names, addresses, and telephone numbers of adjoining property owners, lessees, etc., whose property also adjoins the waterway.

<u>Lee E. Dorothy Crane</u>	<u>Allen L. Basso</u>
<u>5900 Wedgewood Ave.</u>	<u>5120 Birch St. #200</u>
<u>Carmichael, CA 95608</u>	<u>Newport Beach, CA 92660</u>

☐ Check here if the alteration is located on endowment lands administered by the Idaho Department of Lands

13. LEGAL OWNER IF OTHER THAN APPLICANT N/A

Mailing Address _____ City, State, Zip Code _____
Area _____ Area _____
Phone _____ Work(_____) _____ Home(_____) _____

14. List other applications, approvals, or certifications from other Federal, interstate, state, or local agencies for any structures, constructions, discharges, deposits, other activities described in the application.

Issuing Agency	Type of Approval	Identification No.	Date of Application	Date of Approval

15. Has any agency denied approval for the activity described herein or for any activity directly related to the activity described herein? Yes _____ No _____
(If "Yes" explain)

16. Remarks or additional information: Hwy 200 North to Ponder Point to left on Kootenai Bay Road, past white fence on left.

17. Application is hereby made for a permit or permits to authorize the activities described herein. I certify that I am familiar with the information contained in the application, and that to the best of my knowledge and belief, such information is true, complete, and accurate. I further certify that I possess the authority to undertake the proposed activities. I hereby grant to the agencies to which this application is made, the right to come upon the above-described location to inspect the proposed or completed work.
